THE EDITOR'S PICKS

Ted Munsell (on left) built this copper C10 and took home the Sport Truck Editor's Pick and Second Place in the Sport Truck Challenge with it. He says The Challenge was a ton of fun, and he's building another truck to compete next year. We tried hard not to pick another C10 for the award this year, but you could literally eat your lunch off every surface of this truck, and we couldn't find another truck in the show on the same level.

The Mini Truck Magazine Editor's Pick was this Iron Pub, owned by Kyle Gould.
