World Day of Peace January 1st

The World day of Peace was established by Pope Paul VI in 1968 who asked that "every year, this commemoration be repeated as a hope and as a promise, at the beginning of the calendar which measures and outlines the path of human life in time, that Peace with its just and beneficent equilibrium may dominate the development of events to come." Each year has a specific theme, chosen by the Holy Father.

This formation is designed for Parish R.C.I.A. teams and others involved in sacramental initiation but is open to anyone interested and would like to learn more. CONVERSATIONS AROUND DEATH AND DYING (Rexton/Richibucto) Since 2016, a diocesan committee has been offering formation and information sessions in response to the legalization of medical assistance in dying (MAiD). One theme arising from these sessions was that many of us are uncomfortable discussing the subject of death. However, honest conversations (about values, good palliative care, or advanced care planning) can help to improve the care we receive at the end of our lives. In response to this, the diocesan Committee looking at End of Life Pastoral Care is planning a session for **Saturday, January 28th at Immaculate Conception Church in Rexton (10 School Street) from 10:30 am – 12:00 pm.** The session will be led by Pam Driedger, member of the Adult Faith Commission and a Director of Spiritual Care at the Moncton Hospital with Horizon Health Network. The aim of this session will be to help families start conversations about death and dying before circumstances force them to. How can families and loved ones accompany those who find themselves struggling with illness, pain and difficult medical circumstances? Register with Karen LeBlanc at 387-4198, karen.diocese@gmail.com or online at www.diomoncton.ca → Pastoral Offices → Adult Faith → Formation Opportunities.

FAITH EXPERIMENTS EXPRESS Children in grades 1 through 6 are invited back to Faith Experiments Express where we use interactive science experiments to teach about God and Scripture. Sessions are conducted via Zoom and our next session will take place **January 9th** at 6:00 pm. For more information, Contact Karen at 387-4198 or karen.diocese@gmail.com. Register online at www.diomoncton.ca → Pastoral Offices → Youth Faith Development.

The Challenges We Face

The world has been gathering in Egypt and Montreal, to come to grips with the challenge we face with our changing climate. Pope Francis, speaking on this very topic 4 years ago, points out some of the challenges we face in building a consensus to a better world.

Pope Francis, speaking frankly, states:

53. These situations have caused sister earth, along with all the abandoned of our world, to cry out, pleading that we take another course. Never have we so hurt and mistreated our common home as we have in the last two hundred years.

Yet we are called to be instruments of God our Father, so that our planet might be what he desired when he created it and correspond with his plan for peace, beauty and fullness. The problem is that we still lack the culture needed to confront this crisis. We lack leadership capable of striking out on new paths and meeting the needs of the present with concern for all and without prejudice towards coming generations. The establishment of a legal framework which can set clear boundaries and ensure the protection of ecosystems has become indispensable; otherwise, the new power structures based on the techno-economic paradigm may overwhelm not only our politics but also freedom and justice.

54. It is remarkable how weak international political responses have been. The failure of global summits on the environment make it plain that our politics are subject to technology and finance. There are too many special interests, and economic interests easily end up trumping the common good and manipulating information so that their own plans will not be affected. The *Aparecida Document* urges that “the interests of economic groups which irrationally demolish sources of life should not prevail in dealing with natural resources”.^[32] The alliance between the economy and technology ends up sidelining anything unrelated to its immediate interests. Consequently the most one can expect is superficial rhetoric, sporadic acts of philanthropy and perfunctory expressions of concern for the environment, whereas any genuine attempt by groups within society to introduce change is viewed as a nuisance based on romantic illusions or an obstacle to be circumvented.
