

# 94<sup>th</sup> Annual Beaumont Lecture

## "Emerging and Re Emerging Infectious Diseases: The Perpetual Challenge to Global Health"

**Marcus Zervos, MD**  
*Division Head, Infectious Diseases*  
*Henry Ford Health System*  
*Professor of Medicine*  
*Wayne State University School of Medicine*

**October 23<sup>rd</sup>, 2015**

**12 Noon Lunch**

**Somerset Inn, Troy**

Marcus J. Zervos, M.D., is Division Head, Infectious Diseases, Henry Ford Health System and Professor of Medicine in the Department of Medicine and Infectious Diseases at Wayne State University School of Medicine in Detroit, Michigan.

Dr. Zervos received his medical degree from Wayne State University School of Medicine. He completed his medical internship and residency and chief medical residency at Wayne State University Affiliated Hospitals. He was a Fellow in Infectious Diseases at the University of Michigan Medical Center in Ann Arbor, followed by Associate Hospital Epidemiologist at the Yale New Haven Hospital and Assistant Professor in the Departments of Laboratory Medicine and Internal Medicine at Yale University School of Medicine in New Haven, Connecticut. He then served as infectious diseases consultant and Medical Director of the Microbiology Laboratory and Co-Medical Director of the Molecular Probe Laboratory in the Department of Clinical Pathology, and Director of Research at William Beaumont Hospital in Royal Oak, MI. At Henry Ford Health System he served as Associate Director of Research (Clinical Trials), and Medical Director of Infection Prevention.

Dr. Zervos area of research is epidemiology and outcomes of serious enterococcal and S. aureus infection, and coordinates Global Health projects in various international locations. He has been the recipient of several million dollars in grant awards, and has been Principal Investigator on over 300 government and industry-funded studies examining multidrug antimicrobial resistant pathogens. Certified by the American Board of Internal Medicine and Infectious Diseases, Dr. Zervos is on several NIH review panels, editorial boards, editor of major journals and a member and fellow of several professional societies, including the American College of Physicians, and the Infectious Diseases Society of America. He was awarded various honorary lectureships, and humanitarian awards. He was awarded the CDC, James H. Nakano Citation and Charles C. Shepard Science Awards for work with resistant Staphylococcus aureus. He has contributed over 430 published abstracts at national and international scientific meetings and has published over 270 articles in peer-reviewed journals. He has co-authored several books and contributed numerous book chapters dealing with infectious diseases.
