Minibike Build-Off

Knowledge Bowl

7th Renaissance

8th US Constitution

CBI

8th Grade US History

This month we will be learning about what happened after the Revolutionary War ended. The Articles of Confederation and the Constitution are the big subjects. Students will be participating in another simulation on how congress works, Presidential terms of office, The Bill of Rights, and so much more!

7th Grade World History!

Our students are just finishing up the Middle Ages and are about to start learning about the Renaissance in Europe.

CBI

8th grade has been learning about banking and the 7th graders are learning about respect and how to maintain friendships even when you both disagree on certain topics.

2020 Minibike Build-Off

Four of our students have been hard at work researching parts for the OMB 2020 Biker Build-Off. Team members Austin McIlvain, Dillion Musser-Durm, Clayton Phillips, and Jordan Stine have been hard at work researching parts and placing orders. The frame was sent off to get powder-coated and will be ready to be picked up on March 12. We have also partnered with Fury's Mower in Alliance, Ohio. They will be helping us with parts and expertise. You can learn more about the Build-Off by going to our web page. <http://www.mrdaviscbi.com/biker-build-off.html>.

2020 Knowledge Bowl

Students from both of the 7th and 8th grade CBI classes have been staying after school one night a week to practice for the Knowledge Bowl Competition that takes place on April 16 at the Honda Heritage Center in Marysville, Ohio. They will be competing in the Middle School Class. This year there will be around 30 teams competing from all over the state of Ohio. You can read more about what Knowledge Bowl is by going to our web page. <http://www.mrdaviscbi.com/knowledge-bowl.html>
