

# REVELATION 12 SIGN - 666 STARS

The purpose of this illustration is to depict the quadrant of the constellation *Virgo* as *Jupiter* is positioned on the day that it is believed will astronomical fulfill the Revelation 12 Sign. The position of *Jupiter* on the 23rd of September, 2017 will coincide with the *Sabbath of Return*. It will also be when *Jupiter* is 13 days out from the delineation of the 'Womb' area of *Virgo* as some interpret the 'line of birthing' to have occurred on the 9th of September. The *Virgo* quadrant where *Jupiter* will be in positioned on that day conjoins to the Star HIP 66623. This has some unique correlations as that quadrant begins the numerical sequences of 666. On one level of a possible inference has to do with the number '23'. Such a number in the 666 numerical factor suggests a matching with the 23rd day that apparent astronomical fulfillment of the Revelation 12 Sign as mentioned. It also echoes the sentiment of Psalm 23 as in a spiritual typology, it would appear that *Jupiter* goes about the 'Valley of the Shadow of Death' as it traverses this '666 Quadrant' that invokes the connotation of the *Mark of the Beast*, that being 666. What is also amazing is that the position of *Jupiter* on this fulfillment of the Revelation 12 Sign is set in front of the *GoogleSky* 'cover-up' patched area that some purport to be the 'Red Dragon' anomaly.

It does appear to be rather unique about the place and timing of *Jupiter* being at this 666 quadrant and as it were about to go into the 'Belly of the Beast', literally or at least astronomically. As mentioned, this *Virgo* quadrant has the Stars labeled in the range of the nomenclature or 'naming' of the Stars that start in the 666 number sequence. The numerical sequence of labeling the Stars of the sky goes by such sequences, etc. There are apparently 5 main HIP 666 Stars that will be in the quadrant where *Jupiter* is positioned on the 23<sup>rd</sup> of September as the *Sign* concludes.

There are 2 HIP 666 Stars that are outside the 'line' of *Virgo*. These 666 Stars are HIP 66617 and HIP 66648 that are outside of the main constellation of *Virgo* but within the quadrant still. This finding was made by Marc Dominguez of the *Revelation 12 Sign Dragon Found* YouTube channel and posted on September 19, 2017.

The author believes that the HIP 666 Stars could be the illusive 'Red Dragon' of Revelation 12 and stated that there are 7 HIP 666 Stars that he discovered. To reiterate, it is rather unique that this discovery of the 666 Star quadrant is juxtaposed in front of the now widely circulated *GoogleSky* 'cover-up' of the supposed 'Red Dragon' anomaly. In it rather amazing that the Revelation 12 Sign phenomenon does associate a 2nd Sign of a 7 headed *Red Dragon* and that later on, such a 'Beast' is ascribed to have the numerical value of 666, that being the *Mark of the Beast* of coming AntiChrist. Does this 'coincidence' perhaps also signal the soon coming of the literal debut of the AntiChrist?
