

ECLIPSE OF THE CROSS

CRUCIFIXION PLANETARY ALIGNMENTS

The Death of the Lamb of YHVH

by Luis B. Vega

'From noon until three in the afternoon darkness came over all the land. About three in the afternoon Jesus cried out in a loud voice, Eli, Eli, lema sabachthani? which means My God, my God, why have you forsaken me?' –Matthew 27:45-46

The purpose of this study is to show the astronomical occurrences that happened during the time Jesus was on the *Cross of Calvary*. The study will assume the following. Based on some evidence and celestial patterns, Jesus was born on September 11, -3 BC. The second supposition is that Jesus was 33 years old but was crucified on Passover, April 13, 32 AD. Given this timeline, it appears that some peculiar astronomical alignments did occur during the actual day of the crucifixion that this study will examine. Based on prior studies of the crucifixion, it is established that Golgotha or the *Place of the Skull* that is adjacent to the *Garden Tomb* was where Jesus was crucified and the correct location.

This area is just north of the *Damascus Gate* and outside the ancient city walls of Jerusalem. The prior studies have established that there is a mathematical relationship that incorporates the *phi ratio* factor. This factor even delineates the degree of time and distance of all things created as the essence and construct of all things. Contrary to many historical and artistic renditions of the crucifixion, based on the work of Ron Wyatt, the crucifixion spot was between the *Skull Façade* that makes up the pinnacle of *Mount Moriah* and the *Garden Tomb*. The crucifixion spot was not atop the *Skull Façade* or just any arbitrary place but it was against the rampart that made-up pinnacle of *Mount Moriah*. Mathematically this spot approximates the *phi ratio* proportion of the distances that made-up the 3 points of the crucifixion events and localities that day.

Other *phi ratio* factors will be disclosed regarding the celestial alignment that was present during the crucifixion as well. If in fact it is the case that the actual crucifixion date was on Passover in April 13, 32 AD, what is unique to the other contested dates such as April 3, 33 AD is that there was a planetary alignment juxtaposed to the cross. This is the case if one renders the Ecliptic to show all the cardinal points in the same illustrative frame. Many cite the fact that that there was an eclipse on this date; although true it was a lunar eclipse. Also it was a partial one and occurred at the 'feet' of Virgo. However, there was no solar eclipse as would be impossible to have both at the same day. Thus the eclipse was not considered a Blood Moon one as it was the case in Egypt where the 1st Passover commemoration started.

The Passover Alignment

However, there was a full lunar eclipse or Blood Moon on April 13, 32 as it turned into Midnight. This Passover Day Blood Moon was as it first occurred in Egypt and when the Hebrews evacuated or were taken out as a type of the Rapture. Although the Blood Moon occurred at midnight and in the constellation of *Libra*, the Balances or more accurately the Altar as it was depicted the ancient *Mazzaroth*, was not seen over Israel but descended below the horizon. Pertaining to the Passover planetary alignment, if one were standing at the foot of the cross facing north as Jesus was facing east and looked up at the sky, the following is what one would have witnessed. This scenario is assuming that from 12 noon to 3pm, the total darkness covering the whole land was due to a solar eclipse.

According to the planetary software models, directly in line with the cross in which Jesus was crucified was a planetary alignment of *Jupiter* with *Capella* in the constellation of *Auriga*, the *Pierced Shepherd* and Polaris, or the *North Star* in *Ursa Minor*. If one studies Astronomy to any degree, the elementary knowledge will teach that the *North Star* is from where all other stars of the known Universe revolve around. If one studies Jewish Eschatology related to Biblical Astronomy, one will realize that *Jupiter* is considered the *Planet of the Messiah* or the *King Planet*. In fact, the ancient Jewish name for Jupiter was *Melchizedek* or *the King of Righteousness*. However, as with the *Mazzaroth*, the attributes of the planets also have an antithesis in terms of esoteric and Luciferian meaning as well. As it pertains to *Jupiter* for example, in the occult world, *Jupiter* is attributed to the AntiChrist, the anti-type of Jesus Christ, thus Lucifer, etc.

The star *Capella* in *Auriga the Shepherd* means the 'Pierced One'. This astronomical depiction is seen as the horn of Taurus does pierce the heel of the *Shepherd Auriga*. This speaks prophetically of the eternal struggle and battle of the 2 *Seeds* pitted against each other since in the *Garden of Eden* by YHVH. This disclosure to mankind was in fact the 1st Biblical Prophecy given to mankind, Genesis 3:15, a *proto-Evangelism* or Gospel. What is rather interesting is that *Jupiter*, the *King Planet* happened to align on this day with Jesus on the Cross and the Temple Mount in direct alignment by the 3pm hour. It was at the exact time Jesus died. Based on the Gospel accounts, Jesus after having been up all night. After celebrating the Passover with His Disciples in the Upper Room, Jesus was arrested and tried 7 times during the night.

After being sentenced to be crucified by the Romans at the bequest and insisting of the corrupt *Elder of Zion*, Jesus was nailed to a cross or 'tree' in the midst of 2 other males. The center piece was believed to have been reserved for the vilest of offenders of Rome and were made to be an example, tortured, naked, and exposed outside of Jerusalem. In essence, the *Gate of Damascus* served as the 'crossroads of Humanity' as it was the point in which the trade routes of the ancient world and continents converged. If any message was to have the maximum effect and dissemination, this would have been the place and time. During any given feasts of which 3 were required *Moedim* of YHVH such as Passover, the population of Jerusalem would have swelled-up to hundreds of thousands. Also consider that the Jews came from the 4 corners of the then known world and spoke many languages.

The Death of the Seeds

What is also interesting about the *Jupiter* alignment to the cross was that not only did it accent the crucifixion of the *King of the Jews*, the *King of Righteousness* but *Jupiter* was exactly in the midst of the 2 horns of *Taurus*. According to the research of E.W. Bullinger, the constellation *Taurus* represents the 'Wrath of the Judge' on one level but also the 'Beast' that sequestered 'Eve' as typified by the *Pleiades*. The other unique aspect is mathematical in that the distance at that time when Jesus died on the *Cross of Calvary* was thus in approximate *phi ratio* from the distance of the actual cross to the *North Star Polaris* to the star *Capella* in *Auriga* and to *Jupiter* in *Taurus*. Thus the astronomical tapestry accented this section of the story-line of the *Mazzaroth* in that Jesus, died, the *King of Righteousness*, as the *North Star* from which all things seen and unseen revolve around.

When the *phi ratio* spiral from the base of the cross of Jesus is applied for illustrative emphases, and the spiral fulcrum is set upon *Polaris*, the *North Star*, then the terminal point intersected *Jupiter* and then ultimately the ley-lines of the *Pleiades*. Jesus at the cross was pierced as the *Good Shepherd*, *Auriga* that laid His life down for the Sheep, His People Israel but not only those but that of the whole world. It was at the *Cross of Calvary* that Jesus took the full wrath of the 'Beast' *Taurus* as YHVH required to redeem Adam and Eve's fallen race as a man. This cosmological correspondence is attributed to the Redeemer, Jesus as the Groom, redeeming His Bride, the 'Pleiades' bound by the 'Wrath of YHVH', and subject to Lucifer's domain that was, is and is to come, etc. Another interesting observation about this particular time and place of Jesus's crucifixion was that the Sun was in the constellation of *Aries*, the ram-goat.

Nothing would seem significant about this position of the Sun as it is in this House or Sign every springtime. However, what was unique on this day was the following. First if one took the angle of the Sun to the base of the *Cross of Calvary* where Jesus was suspended between Earth and Heaven, literally the angle was at a 33° arc from the *Skull Façade*. If one also took this same angle and juxtaposed it symmetrically from the *Skull Façade*, the angle directly aligned itself to *Saturn* in *Cancer*. This arc of degrees from the *Skull Façade* also was in direct alignment vertically to the mysterious star of *Draco*, *Thuban*. This star is from where the Great Pyramid of Giza has one of the shafts aligned to.

If it is understood that the crucifixion site was at street level more or less and in-between the *Skull Façade* and the *Garden Tomb*, if one looked up just over the ledge of the rocky wall directly in front of the crucifixion spot that had edged on its ledge the 3 signs of Jesus' offense, then one would see the constellation *Draco* just crest above the *Mount Moriah* pinnacle. What was interesting about this depiction was that *Draco* was in an upside-down depiction as it was sitting behind the pinnacle of *Mount Moriah* towards the north. This has echoes of the 'Sides of the North' that the actual *Draco*, Lucifer wanted to elevate his throne above that of YHVH in Heaven. What the constellation also would have shown is the foot that was adjacent to the head of the 'dragon serpent'. This celestial depiction at the cross accented the death of the Seeds as Jesus crushed the 'head' of the serpent at the cross by using the same instrument and power of sin, Death.

The Array of Celestial Bodies

It was also at the *Cross of Calvary* that by the same death of Jesus, the *Seed of the Woman* so too did the *Seed of the Serpent*, Lucifer die as well. Jesus as the *Seed of Eve* resurrected back from the state of death in the ground or *Garden Tomb*. Jesus taught with parables in that except a seed fall to the ground and die, it cannot bear fruit. The crucifixion of Jesus sealed the doom and defeat and ultimate destruction of Lucifer. In ancient folklore that even pre-dates the creation of Adam and Eve, there is said to be the 'Gods of Atlantis' on Earth and so much that Saturn was even considered a 'Sun' and associated with the *Watchers*, as in the *Fallen Angels* and Lucifer, etc. Although all these astronomical depictions occurred on this day and time, normally such alignments would not have been able to be seen.

However, the court astrologers of the royal palaces of the then known world empires would have as would the evil *Elders of Zion* that had usurped the *Sanhedrin* or the *Seat of Moses*. In fact, such a Secret Society within the ranks or the ruling class elite was known as the *Sons of Jupiter* in fact. This study however suggests that in the Biblical context and definition of the planets during the day of Jesus; crucifixion, in all there were 7 celestial bodies present that made-up the array of the astronomical story-line that accompanied and accented the crucifixion of Jesus that day. Out of the 7 celestial bodies, 6 can be verified by the latest and amazing software models and the ancient peoples could have only dreamt about using. The 6 celestial bodies that fanned the crucifixion site from the west to the east that day were the following.

Planet	In Constellation
1. Mercury	<i>Pisces</i>
2. Venus	<i>Cetus</i>
3. Sun	<i>Aries</i>
4. Jupiter	<i>Taurus</i>
5. Saturn	<i>Cancer</i>
6. Uranus	<i>Leo</i>
7. (X) ?	<i>Aries</i>

Another amazing observation pertaining to the array of the planetary bodies on the supposed day of Jesus' death is how the 7 bodies on the Ecliptic suggests a 'menorah' pattern. There are 3 bodies to the left of Jupiter and 3 bodies to the right. What this study is suggesting is that astonishingly, the arrangement approximates the order of the Solar System with 2 exceptions. It is assumed the Earth is omitted as that is the point of reference. The Sun replaced Mars as the planet and the 'God of War'. This would make theological sense as Christ Jesus came to bring peace and make peace with YHVH.

More astonishing, the atonement of Jesus' death as the *King of Righteousness*, as 'Jupiter' provide through His blood atonement the amazing and divine aspect to have the *Peace of GOD*. Neptune was replaced by Regulus, the Giant Blue Star that is known as the Heart of the Lion. What is also spectacular is that Uranus is in Leo; a very rare conjunction. Uranus means the Heavens. Since 32 AD, including the conjunction of Uranus within Leo, there have only been 12 occurrences of such an alignment. Does the 12 signify the 12 Tribes of Israel?

The Cosmic Serpent

The planetary alignments and those on the Ecliptic at the time of the crucifixion displays the approximate spectrum of visible light. The planet's colors based on their resonance or frequency approximates the color of the Rainbow. The *Sign of Noah* was YHWH's promise not to ever destroy the Earth by water. Jupiter takes the position of the *Servant Stem*, as Jesus did on the Cross of Calvary. This Ecliptic planetary array was as a 'Celestial Rainbow' in full view. What this study suggests is that what made this particular day unique and the *Sign of Aries* stand-out among all the other Passovers consists of 2 factors. One factor deals with the amazing account that there appeared to be a total solar eclipse for 3 hours during the crucifixion of Jesus. This occurred according to the Gospel accounts from 12 noon to 3pm. Jesus was placed on the cross though from 9am to 3pm when Jesus died.

As no normal solar eclipse can last mathematically more than approximately just over 7 minutes, there has been much speculation as to what could have caused this phenomenon. Some speculate that it was a miraculous solar eclipse, others believe it was a severe storm. What is telling according to the Gospel accounts is that a great earthquake accompanied this darkness over the entire land. It has been proven scientifically that at times, the planetary alignment of various bodies does affect the gravitational force-field of Earth and in turn triggers earthquakes as pressure from the tectonic plates shifts as the core is also affected, etc. This study does agree with the work of Gil Broussard in that his models strongly suggest that a heavenly body 7 times the size of *Jupiter* eclipsed the Sun during the crucifixion of Jesus, *Planet X* or more accurately, *Nemesis*.

Broussard proved mathematically that such a size of a celestial body would have exactly eclipsed the Sun for 3 hours. Thus, if this would have been the case, then there were indeed 7 celestial bodies spanning the sky from the west to the east having *Jupiter* as the key and center celestial body in direct alignment vertically to the cross of Jesus. What this then further suggests pictorially is that such an array of celestial bodies composed a 'celestial menorah' or sorts. This is only to the degree that the planets, the constellations and the stars could have been seen for the 3 hours of darkness and the stars could have shown above the stratosphere. This study assumes that it would have been the case.

This 'celestial menorah' would be in keeping with the theological understanding that as *Jupiter* was the *Center Stem*, it represented the *Servant Stem*; 'As Above, So Below'. On Earth below, *Jupiter* corresponded to the one crucified between 2 males. As above, the *Jupiter* was juxtaposed between 2 male constellation in the heavens, that of *Orion* and *Auriga*. If the conjecture of the research from Broussard is valid, then the phenomenon of *Planet X*, the *Red Dragon*, *Nemesis*, etc., does exist. In fact the 1st axiom of such a mantra has been hijacked by the Luciferins. Originally, it belongs to Jesus and He provided the matrix of such a stricter in the LORD's Prayer, '*Your kingdom come, your will be done, on Earth, as it is in Heaven*', but in reversed order even.

It would also corroborate the many ancient recorded accounts of such a celestial body approaching Earth that coincide with worldwide catastrophes of varying degrees. The degree to which the severity of the flybys affected Earth was determined on the angle, the place the mini-solar system interjected the planetary planes and on which side of the Sun the Earth was on. What is also interesting is that based on this angle, the planet *Jupiter* is approximately 33 degrees from the Earth-Sun alignment. Given the scenario that indeed the 3-hour darkness was attributed to the solar eclipse of the Sun by *Nemesis*, then the following can be conjectured based on the angle and alignment of the planets. For one, if the Earth was seen from a bird's eye view of the Solar System as being the vertical axis in alignment with the Sun, then this means that the *Nemesis* heavenly body was in-between the Sun and the Earth.

This would have and could only have produced the 3-hour solar eclipse. Will such a time approach the reappearance of *Nemesis* and be the variable that will likewise cause the darkness of the coming Kingdom of the Antichrist due the 5th Bowl judgment? Also, this means that *Nemesis* would have been somewhere in the planetary orbital planes of *Venus* and *Mercury*. Based on current speculation and from mathematical models it is believed that *Nemesis*, that is the *Red Dragon* is coming from the south in a clockwise direction. In this possible modern approach, the perihelion will be reached behind the Sun based on the *Solar System Scope* model.

Lastly if one was present at the 3pm hour when Jesus died on the *Cross of Calvary* towards the north of the *Temple Mount* and looked directly towards the west just above the Temple proper as the afternoon sacrifices of the Passover Lambs were being slaughtered in the darkness of the solar eclipse, the following would have been depicted in the stars that the eclipse would have allowed the throng of the multitudes to see. The planetary alignment of *Mercury*, *Venus*, the Sun and *Jupiter* would have been at an exact vertical alignment. Moreover, the distance from *Mercury* to *Venus* and the Sun would approximate the *phi ratio* of distance between each other, which is amazing. The constellation just showing above the pinnacle of the Temple was *Pisces* that perhaps suggested the *Age of the Fish* to come that has encapsulated the *Church Age*. Next if one drew a line from the *Holy of Holies* to the star *Capella* in *Auriga*, the 'Pierced Shepherd' and symmetrically juxtaposed it, the corresponding star was *Alnitak*.

This is the largest of the 3 stars of the Belt of *Orion* and the star that is always corresponding to the Great Pyramid of Giza. As with the physical crucifixion, Jesus was placed in-between 2 other males, corresponding to *Orion* and *Auriga*. There are several layers of Biblical significance as in 1 aspect, such typifies the duality and 2 missions of Jesus. The first being the Suffering Servant, *Messiah-ben-Joseph*. The 2nd one that of *Orion*, foretells the Messiah's 2nd coming as the conquering warrior, *Messiah-ben-David*. That mission will be to establish the *Eternal Kingdom* on Earth, as it is in Heaven. Consequently, this angle is approximately 72 degrees which echoes the degree of *Precession of the Equinox* and other sacred numerical association with hidden knowledge. Specific to Israel, the Elders of Zion were 70 plus Moses and Aaron; the Sanhedrin was 72 Elders, etc. What is very prominent is that the Sun is directly aligned at that hour Jesus died as the 'Lamb of YHVH' just to the north at very same hour.

To reiterate, as *Jupiter* was in-between the horns of *Taurus*, that in itself in many other astronomical renditions suggests a 'menorah' type of stand. From the Torah, the Menorah was a facsimile of an Almond Tree, thus Jupiter suspended in-between the horns of *Taurus* signified the *King of Righteousness* pierced or 'nailed' to the 'tree'; even so the *Cross of Calvary*. However, a more prominent depiction of the crucifixion, astronomically is seen as *Jupiter* is directly in-between the constellations of *Orion*, the coming *Redeemer*, *Hero* and *Auriga*, the 'Pierced Shepherd' that gave his life for the Sheep. Here again, if those that knew how to read the celestial markers that YHVH set in place according to Genesis as for times, seasons and signs, it would have been evident that on this day. Those that like the *Wise Men* of Persian could have early correlated that the *King of Righteousness*, the *Redeemer* that had come would be pierced as a shepherd to die for the sheep. The parables that Jesus spoke in a common knowledge of the day were and are all corroborated astronomically.

Astronomically, this crucifixion would liberate the 'chained woman', *Andromeda* and the fish, *Pisces* that were bound by *Cetus*, the Sea Monster, Leviathan, aka Lucifer. As the *Church Age* closes, will there be such an astronomical alignment at the return for the *Bride of Christ*? Since the 1st Pentecost, the Church, the Bridge of Christ specifically has been in a state of humiliation of sorts. Perhaps based on the Feast of YHVH and the menorah pattern, if Jesus was indeed born on the Feast of Trumpets or Rosh HaShanah, perhaps that is when He will return. The present 'Pentecostal Feast' interim is not over yet; it is still in play until the Rapture of the Bride of Christ. Thus in turn by 2 witnesses, if the Church was 'born' on Pentecost, many speculate that the *Church Age* will end on a Pentecost. Then if one count from the Rosh HaShanah birth of Jesus, the 7th Feast typology would correspond to Pentecost as well.

This study strongly would argue that the *Church Age* cannot crossover to the last 70th Week of Years to complete Daniel's prophecy and that the Matthew 24 passage is addressed to Israel, the Covenant of Abraham's physical seed and descendants, not the spiritual body of Christ Jesus. This condition is a mysterious dichotomy and primarily due to the reality that as Believers in Jesus as the Christ, such still live in their mortal bodes. The question is, will there be still such a planetary alignment that will correspond to the Rapture event where the 'Pisces', the 'Pleiades' and the 'Andromeda's' throughout the *Church Age* will be liberated of the chains of sin once and for all? Will the completion the 3-fold redemption of the Saints that occurs at the Rapture thus likewise will occur when *Nemesis* comes around as it possibly during the crucifixion of Jesus and caused the *Eclipse of the Cross*?
