

# Audiovisual Conferencing & Boardroom Integration Solutions

AV King can offer the ultimate corporate automation solution, by making the devices you already use everyday all work together seamlessly.

By installing a Control4 EA-1/3/5; with just one touch, you can: power up your AV systems, dim the lights, play music, turn up the heat, lower the curtains and start the web camera. Or, have your system respond to your schedule and needs without touching anything at all.

Control4 smart solutions let you control and automate your lights, AV system, security system, climate and much more.

Call us (AV King) today on 07 3170 3706 to discuss how we can help your business deploy the smart system it deserves.

# Control4™

Control4 is one of the brands we like to use at CET for some of our solutions. Control4 is a leading provider of personalized automation and control solutions, allows you to control virtually any device in a home or business, automatically. Control4 is an elegant and more affordable way to control and automate lighting, music, video, security and energy in a single room or throughout the entire home. Today, Control4® certified custom integrators work with home and business owners to deliver the transformative benefits of the smart and connected home: convenience, peace of mind and an efficient environment that's comfortable and safe.

--

AMX® is part of the HARMAN Professional Division, and the leading brand for the business, education, and government markets for the company. As such, AMX is dedicated to integrating AV solutions for an IT World. AMX solves the complexity of managing technology with reliable, consistent and scalable systems comprising control and automation, system-wide switching and AV signal distribution, digital signage and technology management. AMX systems are deployed worldwide in conference rooms, homes, classrooms, network operation/command centers, hotels, entertainment venues and broadcast facilities, among others.

--

*We (AV King) can bring together communication solutions of lighting, video, audio, voice, and web with ease of content sharing and seamless automation to any boardroom or conferencing facility.*

*We help to visually connect people irrespective of location, a connected workforce with a combination of software, hardware, infrastructure and the expertise to deliver without compromise.*

*The way we conduct business has changed dramatically in the in recent years, but we know that collaboration is about people working better together, and tools should empower to achieve business outcomes.*
