DESCRIPTION: Great looking and performing Bear recurve. The riser is in excellent condition; the limbs show some age and wear/tear. It has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes. No chips, dings or cracks. A few superficial stress lines; no stress cracks or crazing. A few scratches and scuffs here and there. The limbs have been partially reconditioned and you can tell the difference from where the decals were covered up. There are marks / blemishes in the fiberglass near the top part of the limbs (see last pic—may need to enlarge to see detail). These are not stress related. Overall, this is still a nice bow.
