THE BOROUGH OF WILDWOOD CREST

6101 Pacific Avenue, Wildwood Crest, NJ 08260
www.wildwoodcrest.org

April 7, 2006

Dear Contractor:

Borough Commission recently adopted Ordinance 1005, which amends and supplements the Construction Codes of the Borough. Below is a summary of the code along with other important information.

Hours of Commercial Construction and Commercial Landscaping:

8 a.m. – 6 p.m. Monday through Saturday, year around.

Demolition and Pile Driving: prohibited from the Friday before Memorial Day to the day after Labor Day.

Property Maintenance Standards apply to construction sites. No accumulation of trash/debris or vegetative growth higher than 10".

Sidewalks must be clean and safe, as well as free from obstacles for pedestrians. Sidewalk should be kept intact during the construction period, except for a minimal area for driving equipment onto the site. Dangerous and loose concrete must be removed. Pedestrians should not be forced into the street.

Trailers: Sales, construction, storage, semi, and detachable trailers shall be parked on the property where construction is taking place. In the event the trailer can not be placed on site, it may be parked on the street directly in front of the site after obtaining a permit from the WCPD. Under no circumstances shall a trailer be parked on a public street beginning Friday of Memorial Day through Monday after Labor Day.

Material Staging/Storage: No material shall be staged on sidewalk or street. In certain circumstances, with prior approval from the Police Department, materials may be staged briefly on sidewalk or street. Materials can not be staged/stored on a site that is not under construction.

Dumpsters and Debris Containers: Every construction site must have adequate and suitable receptacles for trash. All receptacles, containers and dumpsters shall be covered between the hours of 6:00 p.m. and 8:00 a.m. Dumpsters must be placed on property or a permit from the Wildwood Crest Police Department is required to place dumpster on street.

Portable toilets: Required on sites that have no water or sewer for a period of more than 72 hours. They must be on the property and locked when construction activity is not taking place on-site. No more than two (2) on each site. Must be placed 15 feet from all curb lines. The doors must not face any street.

Construction/Silt fences: All sediment, silt and dirt must be contained on the construction site by construction fences, silt fences and containment fences located upon the property. Storm water grates within the construction area shall be covered with mesh screening in order to prevent debris from washing into the storm drain system. Hay bales are not permitted.

Crushed concrete or gravel shall be placed at site of ingress and egress to the construction site.

Construction site plans to be submitted for zoning review must identify the location on a construction site of all dumpsters, debris containers, trailers, construction and silt fences and portable toilets.

Traffic control: Whenever possible, a street shall remain open to traffic. In the event detouring is necessary, it shall be coordinated with and approved by the Police Department. When loading and unloading of materials etc. causes traffic to be affected, proper signage, notification and approval of the WCPD is required.

Identification of Responsible Person – The Joint Construction Office is requiring every construction site to post a form identifying a contact person and phone number.

Temporary signs or banners during construction

Temporary signs shall be permitted identifying architects, builders, brokers, and contractors on premises where a building is being constructed, altered or repaired. No sign shall be displayed for a period exceeding the time required for such construction, alteration or repair, or for one year, whichever is less. Unless affixed to the principal building, such signs shall be set back at least ten (10) feet from all property lines. *There shall be no more than one (1) such sign on any property. Said sign shall not exceed twelve (12) square feet in size, and shall not stand more than four (4) feet above ground level.*

Penalties: Any violation of the construction code is punishable by a fine up to \$2,500 for each offense, with the owner and/or contractor responsible.

Thank you for your cooperation in keeping our community safe and clean. If you have any questions, please contact the Office of Land Use and Fire Prevention at (609) 729-5152.

Sincerely,

Carl Groon, Mayor
