

Ghee And Chutneys To Delight Your Taste Buds!

About Us

Our ghee is made the traditional way - as it should be! Made from pure, grass-fed cow butter, we simmer it and clarify it until the milk solids caramelize to give it that nutty and rich aromatic flavor. You can taste the freshness and authenticity.

It will remind you of days past and add richness to all your daily recipes. Our ghee is also currently one of the most affordable, *REAL* ghee on the market!

However, Orange Muslin LLC isn't just exclusive to ghee anymore. We've expanded our product line to include other great ingredients and foods for our customers. Now we offer a range of organic goods and chutneys!

Our Ojas brand is our line of USDA certified organic food products. As of now, we manufacture organic ghee. They're made of pure 100% organic ingredients for the especially health-conscious individual.

The Chutney Company is another branch of Orange Muslin LLC set to grow as our line of chutneys (otherwise known as relishes with authentic Indian spices).

THE
GHEE
CO.

OJAS
