## STEALTH TECHNOLOGY

### SILENT SWING WINDOWS

Made of durable acrylic glass, this kit includes windows for a 360 degree view. This window system incorporates our silent window design. All windows

are completely sealed for water and scent control. Greased cabinet hinges provide silent window movement under any condition.

### CLIMATE CONTROL VENTS

Also known as louvers, these vents help control the humidity and temp in your Stump blind. All blinds are equipped with 2 vents that are positioned high and low to get complete pass through of air. All vents come with a built-in bug screen.

### SOLID BASE FLOOR

All Stump blinds come equipped with a 3 layered floor system. First is a steel base that provides strength, second is polyethylene that provides lifetime protection, third is the wood sub-floor that adds stiffness and quietness. Floor mat can be added to floor for sound proofing.

### GUN SHELF

When hunting out of any blind, having a proper way to store your gun is essential. The gun shelf holds your gun and the rest of your gear in place when hunting in a Banks Stump Blind.

A young boy, Jonathan Banks, is kneeling in a grassy field next to a deer he has just hunted. He is wearing a bright yellow safety vest over a camouflage shirt, a yellow cap, and is holding a rifle. The background shows tall grass and trees, suggesting a rural or hunting area.

*“We are a company that believes in creating great experiences in the field. It's what gets us up in the morning. We want to make your outdoor experiences richer by allowing you to share it with those you love.*

*Being there to coach your child through the harvest, videotaping your buddy's hunt or taking ice fishing tips from your father...*

**IT'S THESE MOMENTS THAT WE REMEMBER FOR A LIFETIME!**”
