

January 14, 2016

Dear Citizens for North County,

The proposed Caruso development project along the Agua Hedionda Lagoon must be stopped. Thanks to you and your fellow volunteers, the people of Carlsbad will now be able to vote and voice their opinions about this damaging 85/15 plan.

Caruso and the members of the Carlsbad City Council should be ashamed of the under-handed tactics they used to move the project forward. Circumventing the California Environmental Quality Act and other necessary reviews to move the project forward is dishonest and damaging to our natural resources. The very idea that this project is "saving" 85% of our open space is ridiculous.

I commend your work and the work of the many volunteers who have walked door to door, collecting signatures and getting the word out that Caruso and the City of Carlsbad are complicit in a lie. Please continue your work and know that I support your efforts completely.

Vote No on A

Sincerely,

Chuck Lowery  
City of Oceanside
