

Complete the number sentences.

$$5 = 5 + 0$$

$$5 = 4 + 1$$

$$\_ = \_ + \_$$

$$\_ = \_ + \_$$

$$\_ = \_ + \_$$

$$\_ = \_ + \_$$

Complete the next bead strings in the sequence.

$$6 = 6 + 0$$

$$6 = 5 + 1$$

$$6 = 4 + 2$$

Jack found the following number bonds to 8

$$3 + 5$$

$$0 + 8$$

$$1 + 7$$

$$4 + 4$$

$$2 + 6$$

What order would Jack have found them in if he'd have worked systematically?
