

File Back-up from Dahua NVR

On the NVR

Back-up from NVR to USB

Insert USB into port

Choose File Back-up (Enter password if prompted)

Set the Start Date/Time

Set the End Date/Time

Set File Format to MP4

Choose Search to Save it to the Bottom Screen

Choose Back-up

The NVR will add Smartplayer to the USB along with the video file you identified with the times you entered

On the PC

Insert the USB

Choose the folder where the File was saved

Launch Smartplayer (or use window player by clicking on the saved video file**)

Choose the file you want to view and it will begin playback on the Smartplayer

** Using SmartPlayer provides more options and flexibility with the video playback
