No feedback from Kelly Kilowatt on the power issues. Kelly Kilowatt downloaded the information from the setup up they placed on 5637 bay door and found that we are getting surges one of the power legs coming into the building. They will move the breaker that the door is on over a different part of the panel that is not on that leg to see if that resolves the problem. If it does, they will then come up with a plan to get JCP&L involved to correct the surges.

Apparatus Floor Lighting. Had Kelly Kilowatt write up a quote, same work as was done at Station 57. \$5,720. Fire Company to remove old lighting and prepare the ceiling.
