

WILSPEC LLC Introduces Uniquely Designed Strap Winding Tool for the Trucking Industry - Patented

Several tools are on the market for the trucking industry to aid in re-winding cargo winch straps – **but none of them provide the advantages of this new and uniquely designed tool - manufactured in the USA by WILSPEC LLC.**

- **Fully Engages Winch Hub - No Slipping**
- **One-Handed Operation Leaves Other Hand Free to Guide Strap**
- **Automatically Engages/Disengages Hub Upon Insertion & Removal (moderate pressure on drill or impact required during operation)**
- **Designed to Fit Trucker's Battery Operated Drill OR Impact Driver**
- **Works best with drill, but also designed for those who only carry an impact**
- **One-Piece Assembly – No Retainer Keys or Pins to Become Lost**
- **Stainless Steel Engagement Lugs – No Rust, No Lubrication Required**
- **Compact & Durable Design, The Last Winder You'll Ever Need to Buy**
- **American Made by WILSPEC LLC**
- **See in Action at www.WILSPECCLC.com/products.html**

Available on Ebay, Amazon,
