

WELL WATER TESTING DAY

Wednesday, May 23, 2018

Wednesday May 23rd is Well Water Testing Day at Popo Agie Conservation District. This service is provided to folks within our conservation district boundary which includes Lander, Hudson, Ft. Washakie, Ethete, Jeffery City, and Atlantic City. Water testing kits can be picked up from our office starting May 1st. Option 1 is at no cost. People need to pay for the other tests when they pick up the test kits (cash or check accepted). Samples should be collected the morning of the test day and brought directly to the PACD office **prior to 12:00 noon**. Results of your well water testing will be mailed directly from the laboratory to your home. We will not have access to your test results.

<i>Options</i>	<i>Description</i>	<i>Full Cost</i>	<i>Your Cost</i>
Option 1	Bacteria Coliform - Presence/Absence	\$23.00	0
Option 2	Annual Well Maintenance – Bacteria Coliform Presence/Absence, Nitrate,	\$45.00	\$22.50
Option 3*	Family Water Quality – Bacteria Coliform Presence/Absence, Sulfate, Total Hardness, Nitrate, Nitrite, Sodium, Total Dissolved Solids, pH, Fluoride, Chloride	\$117.00	\$58.50
Option 5	Livestock Suitability – Alkalinity (Total), Chloride, Nitrate +Nitrite as N, Sulfate, Total Dissolved Solids, pH	\$35.00	\$17.50
Option 6	Irrigation Suitability – Calcium, Magnesium, Sodium Sodium Adsorption Ratio (SAR), Conductivity	\$45.00	\$22.50

*Option 3 - The Family Water Quality test provides baseline information. PACD will provide cost-share for this test once per drinking water well.
