| 50 YEARS LATER: 1967 ARAB-ISRAELI "SIX-DAY WAR" THEME AWARD ELIGILITY |
|---|
| Theme Award Eligibility: AMPS qualifying model subjects from any of the four main combatants – United Arab Republics (UAR aka Egypt), Syria, Jordan or Israel as employed in the theater of operations bounded by those same four countries including their national land areas during the period of 5-10 June, 1967. Subjects must be depicted in the appropriate markings and / or color schemes and with the appropriate time-period technical features to be eligible. Model subjects from other nationalities that were actually present within the above defined area are only eligible if they appropriately depict vehicles or equipment as they would have actually appeared when supplied to one of the four main combatants during the war. Model subjects from other nationalities that were not actually present within this area are not eligible for the theme award even if they are otherwise historically or technically correct for the time period.. |
| Any questions about eligibility will be decided by the Chief Judge whose decision will be final. |
