Welcome Dr. Snow!

We are thrilled to welcome Dr. Greta Snow to our team, beginning August 2, 2021. Her expertise includes chronic disease management, osteopathic manipulative treatment, acute care, women's health, contraception management, pediatric care and population health with a focus on preventative care and wellness.

Board certified by the American Osteopathic Board of Family Medicine, Dr. Snow completed her family medicine residency at Suburban Community Hospital in Norristown, PA, where she received the Vickers Family Medicine Resident Award. She completed her medical degree at the Philadelphia College of Osteopathic Medicine. A graduate of Wake Forest University she also received a graduate certificate in Public Health from Thomas Jefferson University's College of Population Health in Philadelphia.

Dr. Snow added, "In my free time I like to play and run with my five month old puppy (he's a golden doodle). I enjoy spending as much time as I can outdoors, especially hiking and swimming/boating. I like to bake and learn new recipes; family time spent in the kitchen and my mom's cooking was a focal point of my home growing up. So I love creating meals and enjoying those meals with family and friends. I am also very happy to be returning home to the Carolinas, and cannot wait to spend time with family in Charleston and explore the city!"

Dr. Snow joins our experienced health center team and looks forward to serving the Town of Mount Pleasant members.
