## What's happening?

The board of trustees is considering a worship location once the coronavirus restrictions are lifted. Trustees are working with officials at St. Nicholas Episcopal Church to use their former church building located at the back of their property (corner of Skyway and Oliver). We'll keep you posted!

Trustees also discussed compensation for church employees, details about rebuilding and voted to give \$1,000 to Samaritan's Purse for Operation Christmas Child. For construction, trustees are considering a metal building, built by North Valley Building Systems, with a basic shell, plumbing, electrical, heating/air and a kitchen.

The Pastoral Search committee will be distributing a letter to seminaries about our church and our available position to help recruit a pastor.
