

Presidents message

Speed Week started out pretty good. We had three courses groomed and ready to go. The courses were not the best and not the worst. We had an early rain during set up and the salt was just too wet from winter to dry out quickly. The start of the race was delayed for 3 days. When racing began it the courses didn't hold up to the wet conditions so we did have to move the courses every night, but we were still able to set some records. All and all it was a pretty good meet with good friends and family. Pray for a dry winter and 2020 speed week should be a fun event.

"Remember faster is better most of the time"

Bill Lattin
