Bariatric Patient Cot

The Bariatric Patient Cot was introduced to support the bariatric population who sought shelter at traditional evacuation centers during hurricanes along the gulf coast. They needed a light-weight, portable, and reusable product which offered comfort and safety for their citizens. Its use has expanded to allowing multiple children as well as parents to sleep comfortably while not occupying multiple cots. This bed is built wider, taller and longer and tested beyond its 700# weight capacity rating to ensure you can provide the best solution in a portable / stowable cot.

Safety

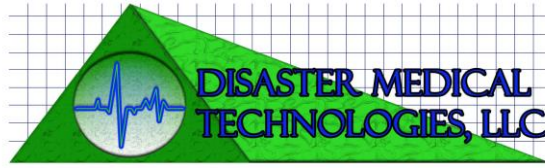

- 700+ lbs working capacity
- Spun Tube Ends
- Heavy Duty Leg Locks on all legs
