BOARD Meeting: The Board meets 7PM Tuesday November 20th, at the Windermere Real Estate Office, 9939 Mickelberry Rd. in Silverdale.

Summer Picnic 2019: We need clams for next year. It is clam season. We need 140 to 180. The Chief Poggie will clean, vacu-seal, and store the clams you donate. No, he won't eat them they will reappear for the 2019 picnic. A 2-fer you get the fun digging them and enjoy the summer picnic. Good digging.

Classes: There will be Rod Building Class starting January 10th & Fly Tying Class TBD. Flyer to sent by special email to all Poggies.

Hey Thanks: To Smart Food Services Warehouse Food of Bremerton formerly known as Cash and Carry for their donation to our Christmas Party Prize Pool.

Hey Poggies: Here is an opportunity to help that anyone can do. Weekends, weekdays - it makes no difference!

Recently the Club membership voted on sponsoring a Kitsap County Doggie Doo station at Chico Creek. The used doggie bags will be placed in our garbage can for disposal.

The Club needs six volunteers for the next year to pick up the garbage from our can at Chico Creek and stock the Doggie Doo station with bags. Each volunteer will have a 2 month obligation to collect the garbage and stock the station, basically once a month. We have an arrangement with Sportsman's Warehouse where the garbage from the Poggie Club garbage can and Doggie station can be disposed at the Sportsman's Warehouse dumpster in Silverdale store. Extra bags for the garbage cans will be in the bottom of the can - when they get low call the Chief Poggie. When the Doggie Do bags get low, well, call the Chief Poggie and he'll get the bags resupplied.

So why are we doing this. Well, it helps our fishermen and our community at the same time. How?

1. Environmentally it is the thing to do. Keeping all bacterial contamination out of the stream and off the beach is essential for the health of the stream and the fish and other wildlife that use that ecosystem.

2. It keeps the beach access open. Chico Creek is on private land - it is owned by the Suquamish Tribe. They have two commercial shellfish operations on the beach. If those beaches get closed because of bacterial contamination caused by the people using the area , then that area would be closed to the public.

Chief Poggie Norm
