GENERAL MEETING-FEB. 9th

JOIN US!

Join us for dinner and an evening presentation compliments of Bendix on **THURSDAY** (Note!), February 9th. Come out to a presentation by Pierre G. Brideau, National Accounts Manager for Bendix Canada Inc. Get updated as Pierre elaborates on the theme of his presentation: “R” E-volution – (Evolutionary or Revolutionary) - of Safety Systems in braking technology.

Pierre will conduct a brief overview of the most recent requirements involving brake technology and upcoming legislative changes to safety systems in 2017; along with updates on existing technologies for roll stability, Btrain and LCV applications, and current developments on the integration of trailer system requirements for SPIFF compliant platforms.

Finally, and in keeping with the theme, Pierre will discuss: ‘Evolutionary or Revolutionary’ changes in safety systems:- Collision mitigation advancement fusing Lane Departure Camera technology - adding intelligent steering for active lane keeping, side wind compensation...

What can the future hold for platooning and autonomous driving!?

Sounds like an enticing presentation!

Mark Halliday, who has already been of great assistance in various positions, was duly sworn-in and will replace Dan as Vice President. Welcome, Mark!

Guido Groppini was also formally sworn-in as our 'Membership Chairperson'. Good stuff, Guido!
