

Specializing in Disaster Recovery and Business Continuity Preparedness  
from Boutique Recovery Strategies to Enterprise-wide Solutions

## Business Continuity Preparedness

Providers today deliver solid technical solutions; yet face challenges gathering business requirements to better understand and fully meet a customer's Disaster Recovery and Business Continuity (BC/DR) needs.

Disaster Readiness Solutions, by partnering with industry-leading solution providers, delivers the program planning and requirements gathering expertise to ensure the fullest in customer satisfaction.

### Business Continuity (BC) Delivery Challenges

- Do you know your critical systems and its recovery plans? A BC Plan should not wrongly assume a system is available earlier in a recovery; otherwise the BC Plan will have a gap in its integrity.
- Does your Disaster Recovery (DR) program support your organization's BC plans?
- Do non-system critical functions have an assigned Recovery Time Objective (RTO)?
- What is the Recovery Point Objective (RPO) for the amount of data needing to be re-entered due to a critical system loss or full catastrophic disaster?
- Can your organization conduct business if systems, data, or facility are not available?
- Are there a mitigation plans in place to ensure operations continue in a loss of critical system loss due to a disaster, isolated outage, malicious attack or human error?
- Are plans and support in place if the staff is unavailable due to inclement weather or pandemic outbreak?
- Are your BC plans Regulatory Compliant?

**Disaster Readiness Solutions** will identify risks, mitigate support gaps, and minimize operational downtime in an outage by working with your organization to build your BC Program in alignment with your organization's needs.

### Business Continuity Delivery Activities

<u>Action</u>	<u>Responsibility</u>
Enterprise Readiness Assessment (ERA)	DRS/ Customer
Detailed Requirements Gathering	DRS/ Customer
Develop BC and Mitigation Plans	DRS/ Customer
Implement BC Program	DRS/ Customer

### Delivery Plan

The success of an effective BC Program is in its planning and design to ensure strategies are established, roadmaps in place, and BC plans are aligned with your DR program.

### Initial Operational Analysis of Client's Environment

- **DRS** will conduct its **Readiness Assessment** to gauge the complexity of your BC/DR needs.
- Identify systems, user groups, and critical systems; determine existing plans and regulatory compliance.

### Detailed Requirements Gathering

- Business Continuity Plans, RTO and RPO.
- Determine risks, vulnerabilities, continuity gaps.

### Develop Continuity and Mitigation Plans

- Develop a scalable solution fitting your BC/DR needs.
- Construct Business Continuity Plans.
- Build Mitigation Plans for Outages, Pandemic Staff Shortages or Inclement Weather?
