

Hurricane Preparedness

To: Part-time Residents and Vacationers

From: Hurricane Preparedness Committee

Make your house hurricane ready before you leave.

Inform the office of the dates that you will be gone with contact information in case you need to be contacted about damages.

Put up hurricane shutters.

Bring in everything that is outside including:

- plants
- furniture
- garden hoses
- garbage cans
- Secure or remove your roof turbines, etc.

If it becomes necessary, time permitting; the community may clear your property of potentially dangerous objects. However, if that becomes necessary, you may be charged for resulting labor and storage costs.

We appreciate your efforts in preparing our community for the upcoming hurricane season.
