NINE DISTINCTIVE PERFUMES FOR BOTH MEN AND WOMEN

*Natural perfumery
is a fine alchemic art.*

At rareEARTH we consciously source only the finest 100% pure essential oils from all over the world—euphoric Jasmine Sambac from India, divine Rose Absolute from Morocco, buttery Sandalwood from Tamil Nadu and rare Zdravetz from Bulgaria.

We source as close to the farmer and distiller as possible to insure the highest quality. Leaves, flowers, roots, seeds and even bark of plants are distilled to make these fine fragrant oils. Essential oils contain the energy or “life-force” of the plant. Each is a rare and precious gift from nature.

Our artisan perfumers skillfully combine top, middle and base notes using these alluring oils to create our distinct and divine perfumes. We blend in small batches and honor ancient principles of natural perfumery using only naturally-derived, pure ingredients. Our sophisticated perfumes are free of any synthetic or manufactured fragrances and contain no phthalates or carcinogens.

Essential oil based perfume works in harmony with one’s body chemistry to create a unique aroma that is distinctive to each individual, men and women alike.

Just like flowers, natural perfumes are more subtle in scent. And just as no two flowers are alike, each perfume may vary slightly in color and scent due to the natural properties of the essential oils.

We enhance each of our perfumes with vibrational flower essences from F.E.S. These work through the energy field of the body and influence emotional, mental and physical well-being. F.E.S. flower essences reduce stress, enhance spiritual mood, increase mental alertness, strengthen will, inspire creativity and balance emotions.
