

REVAMP

MAKE YOUR WARDROBE WORK FOR YOU

Dear Revamp Clients and Friends-

I'm just back from my summer stint in New York where, as usual, fun styles and new looks are plentiful.

Seeing my girlfriends is one of the best parts of my trips back east. I had the opportunity to spend some time with my friend April in her cool Meatpacking District office space looking at her awesome line of men and women's clothing. Her line, Rufus, can be found in small, upscale boutiques nationwide and on line at her website www.Rufus.com. Add a vibrant silk shirt to a basic work outfit or even to a pair of jeans and see your look elevated immediately. She is offering all of you 50% off of anything on her website!!! Just put in the promotional code **Revamp**. And ladies, her men's shirts are what gave the company its name, so don't forget your husband!

As the fall is approaching, don't wait to **Revamp** and renew. It's always a great feeling to start a new season with an organized working wardrobe!

Warmly,
Beth
