

FYI: A message from Mrs. B

Because the JUST 3 program is hands-on utilizing manipulative, and supplies I have readily handy at CLEWS, I have put together the **materials and supplies with directions** that I would be doing with the children in the classroom in the **next 4 weeks**.

Next week, you will be receiving a “drop shipment” of supplies and with directions

I’ve included directions for you, so that **you can decide what activities and when**. **Please first read all the choices and take out supplies as needed.**

Some of these are open-ended and can be revisited or expanded upon.

You can still visit the CLEWS website for updates and each week’s elearning.
