

THE COMMERCIAL APPEAL

Memphis NOV 6 1960

COME AND GET IT — Bill Byers, Hunter, Ark., rice and bean farmer and operator of the Hunter Duck Club, looks over a bumper crop of rice he grew this year for mallards only. The rice was planted in a dead timber area called the

"fish pond." The 80 acres of woods rice produced much better than the regular field rice for which he had a quota. He hopes the ducks don't find the rice until after the season opens at noon on Wednesday, Nov. 23.
