Emergency & Facilities
Management

IT'S YOUR RESPONSIBILITY

To conduct a 60-second Check

(Stop and think before you start work and if the job task changes, ask yourself...)

- Do I know the task at hand?
- Have I read the risk assessment and permit to work?
- Could anything fall, collapse or overturn?
- Do I have the right tools and equipment?
- Am I wearing the right personal protection equipment?
- Are there any energized systems that need to be locked and tagged out?
- Could anything hit others or me?
- Do I need specific training?
- Is there anything hot or cold?
- Will there be any chemicals/substances used?
- Do I know where the nearest fire extinguisher is?
- Do I have adequate room to work?
- What will I do with any waste?
- Will any dust or fumes be created?
- Do I know if the task is going to be noisy?
- Do I know who to call if there is an emergency?
- Is my access/egress safe? Is there enough light?
- Is there anything heavy or sharp?
- Are moving vehicles or heavy equipment a problem?

IF YOU CAN'T DO IT SAFELY

DON'T DO IT!!

ENTERPRISE MANAGEMENT SERVICES WITH EXPERIENCE

APPLICATION MANAGEMENT

Incident & Injury free is non negotiable, it is what defines a great safety manager, and part of what enables us to be a sustainable and successful organization where the job site worker and general public matter.

It's why this company's commitment to its client's needs toward complete health and safety at the construction site. It is paramount and why we are serious about safety.

It's because the working trades are at the heartbeat of this City. That is why we believe we have a duty to care and protect the health and safety of these men and women as well as the public from incidents and accidents in all aspects of the construction *site* where they operate.

Allied Safety Managers are OSHA 511-500 Trained and Certified.
