QUALITY TARGET ARROWS

Fleetwood arrows are held rigidly to exacting specifications found only in the very best arrows made. Shafts are doweled from split stock Oregon Port Orford Cedar, properly seasoned and matched in spine and weight in large numbers. Our arrows are spined on our Micrometer spine tester and weighed on our electric scale capable of holding tolerances of $\frac{1}{2}$ grain or 1/1000 of an ounce. Fleetwood arrows hold practically all the records in the Rocky Mountain States as well as in many other territories throughout the United States.

No. 300 FLEETWOOD 24 SRT-X ALUMINUM ARROWS

Made of the New Easton 24 SRT-X Aluminum Shafting

By far the best material ever made for the manufacture of precision arrows. Possessing a very high modulus of elasticity, and the ability to resist permanent set. Perfect matching, having a one grain tolerance in weight, identical spine. Six diameters of three wall thicknesses each makes possible the correct matching to ALL bows. Precision fletched with 1 in 10 spiral fletching, fitted with Mid-Nox. Crested to your specifications and numbered if desired. Specify Arrow length and bow weight.

No. 300	24SRT-X	Aluminum Target Arrows.....	\$24.00 Doz.
No. 305	24SRT-X	Aluminum Field Arrows.....	\$24.00 Doz.
No. 310	24SRT-X	Aluminum Non-Skip Field Arrows.....	\$27.50 Doz.
No. 315	24SRT-X	Aluminum Hunting Arrows.....	\$30.00 Doz.

No. 325 TAPERED FOOTED TOURNAMENT ARROWS

A very steady, strong and dependable arrow. Perfectly balanced. Beefwood footing. Fitted with 5/16" parallel steel point and 9/32" replaceable pyroxylin nock, perfectly fletched, neatly painted and brilliantly crested. Matched identically in spine and to within 5 grains in weight. Specify arrow length and weight of bow.

No. 325	Tapered Footed Tournament Arrow.....	\$11.95 Doz.
---------	--------------------------------------	--------------

No. 350 CHAMPIONSHIP TAPERED SELF ARROWS

This grade arrow is rightly called Champions as they are used almost exclusively by champion archers in this and many regions where a really good self arrow is desired. They are perfectly matched in spine and weight within five (5) grains. Selected Port Orford Cedar shafts. Tapered from 5/16" to 9/32" at the nock. Spiral fletching with ground base feathers, colored cock feather. 5/16" parallel steel points, 9/32" replaceable pyroxylin nocks, neatly painted and brilliantly crested. Made in any length to 30 inch. Stock lengths, 24", 25", 26", 27", and 28".

No. 350	Championship Tapered Self Arrows.....	\$7.75 Doz.
---------	---------------------------------------	-------------

Note—Be Sure to State Your Arrow Length.

QUALITY TARGET ARROWS

No. 355 MATCHED PORT ORFORD CEDAR TARGET ARROWS

Made of the finest 5/16" Port Orford Cedar, matched within 10 grains in weight and identically in spine. Parallel steel points, 5/16" replaceable pyroxylin nock. Machine fletched with spiral ground base feathers, colored cock feather. Neatly painted and beautifully crested. Lengths 24", 25", 26", 27", and 28".

No. 355 Matched Port Orford Cedar Target Arrows.....\$6.75 Doz.

No. 360 PORT ORFORD CEDAR TARGET ARROWS

This represents a fine quality inexpensive yet durable practice arrow. The same high quality wood is used in this arrow as in the more expensive shafts, the difference being mainly in the matching. Machine fletched, colored cock feather, parallel steel points, 5/16" shafts, replaceable pyroxylin nocks, neatly painted and crested. Lengths, 24", 25", 26", 27", and 28".

No. 360 Port Orford Cedar Target Arrows.....\$4.65 Doz.

No. 365 FLIGHT ARROWS

Made of especially selected high spine light weight Port Orford Cedar shafts, barrelled from 5/16" in the mid-section to .22 in front and 1/4" or smaller at the nock. Fitted with special flight points and replaceable pyroxylin nocks. May be had with either small parallel feather fletching or celluloid veins. All Lengths.

No. 365 Flight Arrows.....\$1.25 Each

CHOICE AND CARE OF EQUIPMENT

An Archer's equipment consists of a bow, arrows, arm guard, shooting glove, and a quiver for holding the arrows.

Arrows are the most important part of an archer's equipment, and the first step in outfitting a beginner is to select the proper length arrow. A "Full Draw" is essential for consistent shooting. At full draw the archer's hand should be anchored under the chin and the point of the arrow resting on the knuckle of the bow hand. The distance from the anchor point and the extended bow hand will vary according to the arm length of the individual. Since the arm length is directly proportionate to the height of the individual the following guide offers a simple method of determining the correct length of the arrows and bow required.

Height of Individual	Arrow Length	Bow Length
5' to 5'3"	24"	5' or 5'3"
5'4" to 5'6"	25"	5'3" or 5'6"
5'7" to 5'9"	26"	5'6" or 5'8"
5'10" to 5'11"	27"	5'8" or 5'10"
Over 6'	28"	5'10" or 6'

The pulling weight represents the pound of pull required for a "full draw" of the proper length for the bow. Many beginners develop faulty shooting habits because they attempt to shoot bows which are too heavy for them to draw comfortably. For target shooting the following pulling weights are suggested.

Ladies22 to 30 pounds Girls, 12 to 16 years, 15 to 24 pounds
Men30 to 40 pounds Boys, 12 to 16 years, 20 to 30 pounds

Hunting bows can be somewhat heavier as shots do not occur so often. Most archer hunters can use bows of 50 pounds or more.

LEMONWOOD BOWS

The Lemonwood (Degame) in Fleetwood bows is imported from Cuba, especially selected for bows and thoroughly seasoned. Characteristic of our bows is the the semi-flat, symmetrical shape of the limbs; not the cheap flat machine made bows so commonly sold. Our bows are hand tillered by an archer-bowyer who has worked at this trade since 1928 and has made over twenty-five thousand fine Tournament Bows.

No. 100 THE FLEETWOOD

Fibre Backed Lemonwood Target Bow with Plastic Bow Tips. This is our finest Lemonwood bow and has proven to be the most durable bow for especially rough use such as Archery Ranges and Colleges. Hand made with the greatest care from selected lemonwood. White or Black vulcanized fibre backing adds beauty to the bow and prevents breakage. Colorful Fleetwood Plastic Bow Tips also enhance the bow's beauty and doubles the life of the bow strings. Genuine leather handle, beautifully shaped walnut overlay, highest grade genuine linen double loop bow string with keeper. Finished in clear flexible varnish, and perfectly tillered. An exceptionally smooth shooting tournament grade bow which will please the most exacting archer. The correct length of bow from 5' to 6' will be supplied to correspond with weight ordered and length of arrow with which it is to be used.

ALUMINUM ALLOY BOWS

"The Metal Bow That Shoots Better Than Wood"

Since the introduction of Par-X early in 1948 it has become the most nationally popular bow ever built. This amazing new aluminum alloy bow actually excels the finest wood bow in cast and smoothness. It is the perfect hunting weapon, the ideal target bow and the choice of the field archers. Some of its many features include: 1. Smooth Shooting, absolutely no jar or kick. 2. May be used in any weather. 3. Unaffected by temperature changes. 4. Exceptionally fast cast. 5. Sight markings are constant. 6. Even pull, no build up at end of draw. 7. Universal handle for right or left hand archers. 8. Limbs may be removed. 9. Available in all standard weights. 10. Unlimited life. 11. Built in arrow rest. 12. Guaranteed for one year.

Until you have actually shot a Par-X Bow you cannot realize what a truly fine bow it is. Order one on a 10 day trial. If you are not more than pleased the bow may be returned for full refund. The Par-X comes to you in a highly polished, natural aluminum, easily camouflaged with masking tape or dark lacquer for hunting purposes.

Lengths and Weights Available.

Wt. at 28"	Length of Bow	Wt. at 28"	Length of Bow
35 lb.	61"	50 lb.	59"
40 lb.	61"	55 lb.	58"
45 lb.	61"	60 lb.	57"

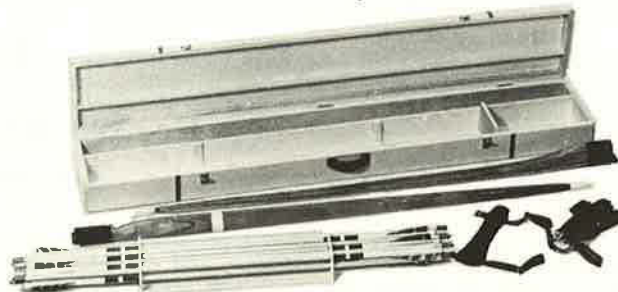

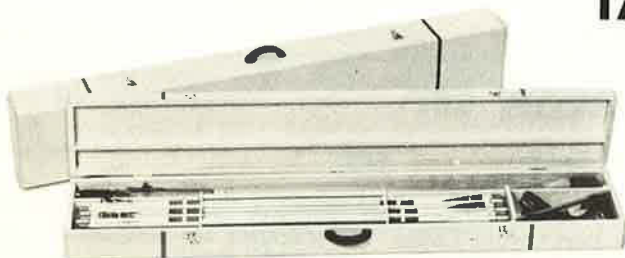

For the purpose of computing shorter or longer drawing lengths, figure approximately 2½ lbs. per inch.

FIELD ARROWS

No. 387F MATCHED FOOTED FIELD ARROWS

Made of selected 11/32" Port Orford Cedar shafts footed with a hard durable wood making the strongest and toughest field arrow available. Perfectly matched in spine and weight. Speed Index nock, long low (1 in 10) spiral fletching. Parallel target type steel point, painted full length of the shaft and beautifully crested. Custom-Built, state arrow length and weight of bow.

No. 387F Matched Footed Field Arrows.....\$11.95 Doz.
No. 305 24SRT-X Aluminum Field Arrows (see page 1).....\$24.00 Doz.

No. 387 MATCHED FIELD ARROWS

Made of selected 11/32" Port Orford Cedar, fitted with target type parallel steel points. Matched to within 5 grains in weight and identical in spine. Long low (1 in 10) spiral fletching, Speed Index nock. Can be fitted with 125 grain points to match our broad-head hunting arrows. Custom-Built, state arrow length and weight of bow.

No. 387 Matched Field Arrows.....\$7.75 Doz.

No. 388F MATCHED FOOTED NON-SKIP FIELD ARROWS

Made of selected 11/32" Port Orford Cedar shafts footed with a hard durable wood making the strongest and toughest field arrow available. Speed Index nock, perfectly matched in spine and weight, long low (1 in 10) spiral fletching. Fitted with Fleetwood steel Non-Skip point that stops at the point they strike the ground. Painted full length of the shaft and beautifully crested. Custom-Built, state arrow length and weight of bow.

No. 388F Matched Footed Non-Skip Field Arrows.....\$12.95 Doz.
No. 310 24SRT-X Aluminum Non-Skip Field Arrows (see page 1).....\$27.50 Doz.

No. 388 NON-SKIP FIELD ARROWS

A fine Non-Skip Field arrow made of selected 11/32" Port Orford Cedar, fitted with Fleetwood steel Non-Skip point that stops at the point they strike the ground. Matched in spine and weight, long low (1 in 10) spiral fletching and fitted with Speed Index nock. Painted full length of the shaft and beautifully crested. Custom-Built, state arrow length and weight of bow.

No. 388 Non-Skip Field Arrows.....\$8.75 Doz.

No. 380 ROVING ARROWS

Closely matched in spine and weight, long low (1 in 10) spiral fletching, fitted with slip over blunt points making them almost indestructible. Made of 11/32" or 5/16" selected Port Orford Cedar shafts. Speed Index nock. Painted full length of the shaft and nicely crested. All lengths.

No. 380 11/32" Roving Arrows.....\$7.45 Doz.
No. 382 5/16" Roving Arrows.....\$6.95 Doz.

NOTE—BE SURE TO STATE YOUR ARROW LENGTH.

HUNTING ARROWS

No. 370 DEERSLAYER HUNTING ARROWS

Made of matched 11/32" Port Orford cedar shafts, fitted with Fleetwood No. 855, 125 grain Deerslayer broadhead. Matched in spine for heavy hunting bows and within 10 grains in weight. Fletched with ground base, long heavy hunting feathers, accurately spiraled. Replaceable Index Speed nocks, painted full length of shaft and neatly crested. Will conform to game laws in all states. All lengths.

No. 370 Deerslayer Hunting Arrows.....\$10.95 Doz.

No. 375 KING OF THE FOREST HUNTING ARROWS

Made to the same exacting specification as our No. 370 except fitted with Fleetwood four (4) blade King of the Forest Broadhead, No. 850, 125 grain. This makes a well matched, rugged big game arrow which effects the deadliest killing power ever designed into a hunting arrow. A Four blade head has many advantages over the two blade in that it cuts a cross which prevents any binding of the shaft allowing maximum penetration. It also leaves an open wound so the blood may flow more freely, leaving a blood trail. All lengths.

No. 375 King of the Forest Hunting Arrows.....\$11.95 Doz.

No. 315 24SRT-X Aluminum Hunting Arrows fitted with Fleetwood Deerslayer or King of the Forest Broadheads.....\$30.00 Doz.

(See page 1).

No. 377 SMALL GAME HUNTING ARROWS

Made of 5/16" selected Port Orford Cedar shafts, matched in spine and weight. Long low spiral fletching, Speed nocks, painted full length of the shaft and neatly crested. Fitted with Fleetwood No. 860 Small Game points. Custom-built, state arrow length and weight of bow.

No. 377 Small Game Hunting Arrows.....\$7.50 Doz.

HUNTING POINTS

No. 850 FLEETWOOD "KING OF THE FOREST" BROADHEAD.....\$4.00 Doz.

No. 855 FLEETWOOD "DEERSLAYER" BROADHEAD.....\$3.00 Doz.

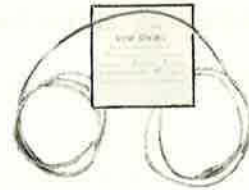

See back cover page for full description of No. 850 and No. 855.

No. 860 FLEETWOOD SMALL GAME BROADHEAD

The Fleetwood Small Game Hunting point is single blade construction, 5/16" ferrule. The blade is made of 20 gauge high carbon spring steel properly hardened and sharpened. The blade is 7/8" x 1 1/2".

No.860 Fleetwood Small Game Broadhead.....\$2.50 Doz.

ACCESSORIES

GENUINE LINEN BOW STRING

Fleetwood Archery Equipment was first made in 1928. We have been pioneers in many phases of the sport and hold many patents on Archery Specialty items.

It is our desire to give you the finest quality in material, workmanship, and design. Each item is guaranteed, on a money back basis, to be satisfactory in every way.

HUNTING POINTS

"KING OF THE FOREST"

GUARANTEED FOREVER AGAINST BREAKAGE

Made of—The finest quality spring steel, tempered and drawn to the hardest possible yet not brittle hardness to hold a razor keen edge.

Two-Piece Construction—Presents a head with two thicknesses of metal at the point and single thickness back on the cutting edges thus making a heavy striking point and a thin sharp cutting edge.

Fabrication—All Fleetwood Broadheads are spot welded in place then electrically welded by a process which makes the joint stronger than the metal itself. Guaranteed forever against the weld breaking.

\$4.00 Doz.

Licensed under Pat. No. 2,373,216

FOUR BLADE BROADHEAD

No. 850 1½" x 2¾". Weight 125 Grains.

No. 851 1¼" x 2½". Weight 200 Grains.

Durability—These heads have been shot into bricks, heavy gauge metal, etc. from heavy hunting bows without so much as dulling the point; tests which would demolish most any other head ever produced.

"DEERSLAYER"

Easy to Install—Simply taper the shaft to the taper in the point and slip on. Tapered design eliminates shouldering and eliminates breakage at this point.

Two Weights—Both the Deerslayer and the King of the Forest Broadheads are available in 125 grain and 200 grain weight. The 125 grain point being the more popular weight, all orders are filled with this weight point unless the 200 grain weight is specified.
