Winner of the Author 101 contest!

**Students Succeed with
Sharon's Smart Way to an A!**

"Give your professors what they need, and you'll get the grade you want."

"Sharon always hits a home run! Trust me...her strategies work, and students love them! She is a frequent speaker for my many audiences. I have her speak to my audiences as often as she can come!"

Dr. Kogee Thomas, University of California, Irvine

Author of 10 Books on Student Success!
Favorite Keynote Speaker, Workshop Leader, Talk Show Guest

Sharon's Smart Way to An "A"

Session 1: Working the Circle

When students are not successful, there is always a reason. Listen to Sharon's fool-proof solution. Learn root cause. Learn when and how to use "band-aids." Learn why that's not enough.

Session 2: Petting the Dream.

Learn how to mentor students so they will succeed. Learn how to work with students to help them know their goals. Learn how to use that knowledge to improve achievement using the process Sharon calls "Petting the Dream." It works!

Session 3: Reaching the Learner.

An old slogan says, "First you reach 'em. Then you teach 'em." Laugh heartily as you learn how to reach students who don't think the way you do.

ence and equip them for
success.

What School Officials Say

Sharon has both the sensitivity and the book knowledge to change peoples' lives for the better. She teaches in a way that even difficult concepts become simple and earning an A becomes as easy as pressing the "easy" button. Her strong and positive presence creates positive self esteem in her students. Sharon possesses an extraordinary combination of skills which creates extraordinary results for her students.

Dr. Sandra Herron
Professor, California Graduate School of Theology

My basic skills students thrive with Sharon's techniques. She is a master speaker and writer. I use her strategies when I teach my own classes. She is one of my favorites!

Carol Mattson, Dean, Fullerton College

She is witty, she is poised, she is easy to work with, and her strategies change student lives. You'll want your staff to hear her.

Dr. Kogee Thomas, Former Director of Admissions
University of California, Irvine

While school reform is a hot topic of conversation, many educators have not implemented practical programs that can help students live up to their full potential. I strongly recommend SCORE. It's too good not to give it to everyone!

Maeva K. Hutter
Title 1 Coordinator
Willard Intermediate School

I can't say enough about how SCORE has positively impacted our Indian Education program. The SCORE program builds pride back into our students by helping them see good points, bring out their strengths, and talk about what they do well while they achieve success in school. Students have recently commented that they wish all their classes were taught like the SCORE class, "school wouldn't be boring." This is the most comprehensive model of student assistance that I have ever used. Yokoke, thank you to the SCORE staff for all of the support that we receive in helping our American Indian students realize their dreams.

Michael Folsom, M. S.
Counselor, Indian Education
Huntington Beach Union High School District

What College Students Say

Your classes and resources have been incredible.

Paula Miller

Thanks so much for a great class—I've used the information quite a bit!

Kaitlin Richardson

I will reap throughout my career from this information.

Jeb Berry

Our class has already provided positive academic results.

Becky Spady

I really gained a lot of information to help me and to help others.

Ligaya Wills

- A frequent guest on radio and television talk shows
- A favorite speaker and teacher

Meet One of America's Favorite Speakers for College Students

Through her twenty-five years as an educator, Sharon has helped thousands of students succeed in college...even those considered at risk by the school system. Her basic skills and language learners excel academically.

As the creator and owner of SCORE, validated by the United States Department of Education for its success in helping low-achieving, high-risk students in school, she is uniquely qualified to help students navigate the changing waters of the college environment.

A clever, inspiring speaker, Sharon provides inspiration, sound advice, and easy-to-implement strategies for college success.

Sharon's unique perspective will provide you with a truly interactive audience experience that involves students' heads and their hearts.
