

Blackwell Primary School

High expectations for
children working at
greater depth-
What it
looks like...

Blackwell Toolkit

Teachers use the toolkit to ensure judgements are accurate and the children working at greater depth are being tracked thoroughly and make good progress.

Metacognition and growth mind set

All staff and children have received training and information on this. The children are encouraged to be reciprocal teachers and to think about thinking so that they become proficient in knowing what strategies help them to learn best.

Impact

AFL is used within lessons and every day so that the more able have tasks matched to their abilities.

Providing opportunities

Achieving Goals

Unlocking potential

Lessons

All staff have received CPD which allows the children to achieve "profound learning" and not just "deep learning".

Curriculum

The newly designed Curriculum gives opportunity for the children working at greater depth to take ownership of their own learning.

This is evident within books, planning, SIP and subject action plans.
