

“Dead Man Appears in Court”

I am writing this because I am an innocent citizen but have been subject to abuse by the Justice system. The fetid Scott County Iowa Justice system has taken away my rightful property, charged me with contempt and tried to imprison me. This despite I was a successful business woman. Based on my experiences, the lawyers which work within it and are sworn to serve it, have many performance deficiencies that would preclude from being profitable in the commercial or business world. The judges who are sworn to be impartial and again serve the law, manipulate the system to serve themselves and their closely-associated lawyers.

Before, you read the below paragraphs, I would like to make clear that it not my belief that all judges and lawyers on America are immoral. However, my past experiences with the American legal system and its cold face if injustice has left me with no other options but to write my story that dates back to thirty years ago in Scott County, IA when I was made a scapegoat by a dishonest judge in order to satisfy his political ambition. Still to this day, his decision is blinding the legal counsels and judges and deranging my case.

My experiences are not based on just one or two lawyers but several. The lawyers seem to have the same pattern of behavior: they will say just about anything at the initial meeting in order to get secure the billable hours, then as the case develops they will slow down to the point of not neglecting due diligence, relying upon only their own persuasive powers, lack of preparation and overall lack of attention. In my own situation, since many lawyers either did not file a court appearance or were very late in filing the appearance, I was hospitalized several times for stroke symptoms (I could not walk) and other effects due to anxiety and stress.

The Judges manipulate the law and use it for the benefit of their friends. In my case, the judge was selected at the last minute and was very favorable to the opposition. So favorable, that they were awarded over 80% of the marital assets. **In another occurrence, they accelerate the foreclosure of a real estate property (see section 3.1 of “Is this Iowa Justice?”) to help the deal for the locals. This also to the creation of a war chest that the opposing side is using to this day against me. Was this war chest used even to this day against me to buy off my lawyers?**

The methods used against are tantamount to abuse of powers by the lawyers and negligence by the judiciary. I was charged with contempt of court allegedly for not surrendering my motorcycles but awarded to my dead former husband. However, these were my motorcycles and he left them with me. **This occurred after my former husband had died and then filed contempt of court against me.**

This was concurrent with my request for the pension through a Qualified Domestic Relations Order (QDRO). In this situation, there was no attempt to obtain the motorcycles before the contempt allegation. In addition, the opposition was also negligent by falling behind on alimony and not filing the QDRO. During the surrender of the motorcycles, the opposition tried to set me up several times for arrest. They even went to the point of "buying off" a storage facility manager to provide false information. Each time, truly by the Grace of God, I avoided imprisonment. While avoid imprisonment, I did not avoid hospitalization due to stroke, anxiety and stress related symptoms. Why did they pursue this contempt allegation with such intensity, as if there were something they were trying to hide? How could a responsible Judge sign the Contempt filing with no due diligence? Except, the Judges and Lawyers were in collusion and had little responsibility to their sworn commitments.

I learned through it in a tough way that shooting at a person's chest with a gun is not the only means of murder. You can drain the blood of an innocent citizen by constant indifference to crying justice and deliberate negligence to a powerless woman who actually is in most immediate need of protection from the legal system. With a heavy accent, it is not easy for me to resolve the matter myself, so I am asking for your help in the restless fight to find my right.

Finally, my story is just of many where the Justice system has failed or over-run individual civil rights, especially of minorities. I am innocent person but they were trying to make me look like a criminal. I provide this for two reasons: 1). For everyone to find out the truth of their Justice system and demand something better and 2). To broadly publish the experiences such that the evil is illuminated, with the hope and desire for the opposition not attack me, to get off my back and leave me alone to enjoy the rest of my life.
