Siddhi (Supernormal Powers) Powerspot Trip + Ambassadors of HoPE Trip to India 2018

4 Trip Date Options Available!
6-11 April 2018 / 20-25 April 2018 / 4-9 May 2018 / 25-30 May 2018

Namaste everyone,

I am delighted to announce we will be organising Siddhi (Supernormal Powers) Powerspots Trips to India in April 2018 & May 2018 for those of you who wish to develop and nurture your own latent siddhi (supernormal) abilities. Since 2012, our Siddhi Powers Trips have been one of our most spiritually significant powerspot trips. During our Siddhi Powers Trips, our attendees have been blessed with direct contact with the Siddhas (masters of supernormal powers) to manifest their desires (be it, for material wealth, health, relationships, and for spiritual evolution) and to develop their siddhis (supernormal abilities).

Why are we offering 4 trip dates in April & May 2018?

As we offer our Siddhi Powers powerspot trips to India on a once-a-year basis (with our last Siddhi Powers Trip being in December 2016), we would like to give as many people as possible the opportunity to connect with the divine Siddhas masters. That is why we are giving the option of FOUR Siddhi Powers Trip dates in April and May 2018 for you to choose from. Once we have a minimum of eight (8) attendees registered for a particular trip date option in April or May 2018, we will go ahead with that specific trip date option.
As our Siddhi Powers Trip is organised in support of Tripura Foundation, Dr Pillai (Babaji’s) US-registered 501(c) non-profit charity organisation, the Siddhi Powers Trip is also an Ambassadors of HoPE trip. As a Tripura Foundation Ambassador of HoPE, you will serve as a beacon of hope and inspiration to the HoPE Center children you will be visiting. We are inviting you to introduce the HoPE center children to new cultures and to the world beyond their rural village by sharing with them about your home country and what you do there. You will have the opportunity to learn and see for yourself how Tripura Foundation’s HoPE Centers and their other initiatives such as the HoPE for the Elderly programs are changing the lives of thousands of children and elderly on a day by day basis. (Learn more below)

**What is the Siddhi (Supernormal) Powers Powerspot Trip About?**

You will journey into the mystical realms of India where you will have direct encounters with ascended Siddha masters who exist among us in their Light Body form.

During the Siddhi Powers Trip, you will spend extended periods of time in meditation at sacred powerspots (often secret and inaccessible to the masses) and directly commune with such ascended Siddha masters who are ever so waiting to bless you with divine gifts and supernormal abilities in order to help you in your personal spiritual and material evolution.

**Objective of the Siddhi (Supernormal) Powers Powerspot Trip**

- **The Siddhi Powers Trip** will empower you to transcend the limitations of your five senses and what you think is humanly possible. You will embark on a journey beyond your limited mind to empower you to live in unity (*siddhi*) consciousness where all things are possible.

- **Spend** extended periods of meditation at powerful Siddha *samadhi* powerspots;

- **ATTAIN** blissful communion with the Siddha masters

- **ACQUIRE** *siddhi* powers and develop your own supernormal abilities through the grace of the Siddhas

Pilgrims come all around the world to walk around Mount Arunachala in order to burn their negative karma and ego (known as the *girivalam*). To maximise your time at Thiruvanamalai, we will drive around Mt Arunachala and you will have the opportunity to seek the Divine’s karma busting grace from the comfort of your vehicle.

Who are the Siddhas?

Dr Pillai (Babaji) has stated: “The Siddhas literally means Perfected Beings. They are perfect in their body, perfect in their mind, perfect in everything they do. Because they don’t have a body, they can go everywhere they want to go and help people”

The Siddhas & Siddhi Powers

The Siddhas are perfected masters who have journeyed beyond enlightenment. Through divine grace and their own intense spiritual practices, the Siddhas acquired and attained siddhi powers and are able to perform supernormal feats beyond human comprehension.

Two of the most famous Siddhas masters from the Siddha tradition, Siddha Thirumoolar (who revealed the ARAKARA manifesting mantra) and Siddha Patanjali (father of yoga) wrote about acquiring siddhi powers (such as powers of omniscience, omnipotence and omnipresence) in their epic works, Tirumantiram and Yoga Sutras respectively.

According to Nandhi (www.nandhi.com), a Siddha presently based in California, in their search for God, the path of the Siddhas is one that abandons the rigidity of one’s beliefs in favour of a life that is based on experience, teachings and grace of the Guru.

A word on seeking siddhi powers: Conventional spiritual traditions have portrayed the seeking of siddhi powers as something to be shunned because acquiring such siddhi powers is said to inflate a spiritual aspirant’s ego and may derail his/her spiritual journey.

The Siddhas believe the opposite - you acquire siddhis as result of grace and such gifts constantly remind you of the presence of the divine living within you. The Siddha way is the path of restraint and Siddha masters, though graced with siddhi powers, choose to live in solitude or among us in society, disguised as ordinary householders.

The World of the Siddhas Has Remained Unchanged for Thousands of Years

Siddha Nandhi gives a beautiful description of how to understand the unchanging world of the Siddhas:

“The realm of the Siddhas is mystical, most times unbelievable and has remained unchanged over thousands of years. To envision this world, it is present to the life present in the extreme depth of the ocean existing under intense high pressure and total darkness, hardly ever disturbed by external forces. This would be an example to illustrate the world of the Siddhas beneath the known in Southern India which still vibrant and alive and yet far away from the rest of human civilisation.”

What is a Siddha samadhi shrine (brindava)?

A Siddha samadhi shrine is a powerspot where the Siddha master decided (often many hundreds or thousands of years ago) to establish himself permanently in his light form there in an act of compassion to make himself available to seekers who seek his help.
A Siddha samadhi shrine is also referred to as “brindhava” which can be translated as “pleasure garden” i.e. where the Siddha remains in eternal heavenly bliss. Note that a Siddha samadhi shrine is neither a tomb nor a grave.

Many of the greatest Siddha samadhi shrines continue to be shrouded in secrecy and we have been blessed to have enlightened Siddha master, Dr Pillai (Babaji), guide us to some of the most powerful Siddha samadhi shrines in South India to get the blessings of the Siddha saint at these powerspots.

When you visit a powerful Siddha’s samadhi shrine, you immediately connect with the Siddha there at a soul level, and with grace, are blessed with the boons you seek from him (including siddhi powers).

“My Siddha Miracle Encounters (I)” by Peter Lim (Dec 2016 Siddhi Powers Trip)

The Siddhas are all-compassionate and want to help everyone who come to them for help. Each of our Siddhi Trips have been filled with miraculous encounters with the Siddhas, and our most recent Siddhi Powers Trip (2-7 Dec 2016) was no different.

During our December 2016 Siddhi Powers Trip, trip attendees were blessed with unique mystical encounters with the Siddhas not previously encountered in our previous Siddhi Trips:

- For one trip attendee, Siddha Agastya (Father of the Siddhas) revealed her future to her in a vision when we meditated in Siddha Agastya’s cave up at the Coutralam mountains
- Two attendees were blessed to hear Goddess Shenbaga Devi singing when we visited Her at her sacred powerspot up at the Coutralam mountains

One attendee, Peter, experienced a profound connection many of the Siddhas during our trip including with Siddha Patanjali (Father of Yoga & Master of Supernormal Powers).

Peter is a successful foreign currency trader and wanted to establish a connection with the Siddhas in order to take his forex trading to the next level.

Peter’s Miracle Encounter with Siddha Patanjali (I)

During our Siddhi Powers Trip, Peter shared with our group that while we were meditating at Siddha Patanjali’s samadhi shrine at Rameshwaram, Siddha Patanjali instructed Peter to lay his hands on his (Siddha Patanjali’s) picture at His samadhi shrine.

Siddha Patanjali revealed to Peter that this was so Siddha Patanjali would always remain in contact with him. (Watch Peter describe how this happened in his video below)

Peter’s Encounter with Siddha Patanjali (II): Vibhuti Miracle

Peter experienced another divine miracle from Siddha Patanjali during our Siddhi Trip, which we were all privileged to witness for ourselves.

Vibhuti (holy ash) mysteriously appeared on Siddha Patanjali’s picture which was in a photo album containing pictures of the Siddhas! (Note: I give all Siddhi Powers Trip attendees an album of all the Siddhas they would be meditating with for our Siddhi Powers Trip - Vijay).

You can see the picture (right) of Siddha Patanjali (a painting by Siddha Nandhi) with the vibhuti which had mysteriously manifested at the bottom left part of the picture.

Peter Shares His Experiences With the Siddhas After Returning to Singapore

Peter maintained his connection with the Siddhas after he returned to Singapore, he shared his ongoing experiences communing with the Siddhas.

Here is Peter in his own words:

“I would like to to share my experience since coming back from our Siddhi Trip (2-7 December 2016).

I was back to work on the same day after returning from the Siddhi Trip and set up my personal Siddha power spot next to my trading station in office.

To connect with the Siddhas we met during our trip, I did the following steps just before the Europe/London markets open.

1. I thanked all Siddhas for their divine calling to visit them and for all their blessings by chanting each of their names 9 times

2. After I completed chanting all their names, I let my mind enter a state of silence to feel the vibration (which would be very high by then).
3. I would continue to stay in this state of no-thoughts and wait for a connection with any Siddhas who chose to communicate with me.

For two days, Siddha Vijayeendra always provided his guidance to me and occasionally Siddha Patanjali would communicate with me to give a blessing.

Since returning from our Siddhi Trip last Thursday (8 December 2016), I have found myself in a different state of consciousness. I have noticed that I am able to control my thoughts and my mind has attained a very focussed state to allow me to make trading decisions.

The Siddhas even prevented me from making a trading loss.

In one particular trade that I wanted to make, I decided to place my trading order but discovered that my computer mouse suddenly could not work in order for me to place the trade!

To my surprise, the market went against me and the trade I wanted to enter resulted in negative trade! If I had placed a trade, I would have made significant financial loss. I believe the Siddhas were watching over me and somehow prevented me from making a wrong trade.

As a result of the good blessing from Siddhas, since returning from our Siddhi Trip, I had two days of trading (on Thursday and Friday) with decent profits.

I am sharing my experience to motivate and keep our faith and spiritual high. All of us are entitled to call upon the Siddhas for their divine blessings for our prosperity, wellness and happiness.”

Thank you Peter!
“My Siddha Miracle Experiences (II)”
by Oliver Sayson (Dec 2016 Siddhi Powers Trip)

[Note: Oliver is a gifted healer and I am grateful to him for sharing his divine experiences with the Siddhas during our Dec 2016 Siddhi Powers Trip – Vijay]

My name is Oliver, and the following are my experiences with the Siddhas, as part of the Siddhi Powerspots Trip from 2–7 Dec 2016.

Siddha Patanjali’s Shrine (Rameshwaram)

While meditating at Siddha Patanjali’s samadhi shrine at Rameshwaram, my body started to swirl in an anti-clockwise direction. My hands started to tingle, and I saw bluish-purple light. Interestingly, in my mind’s eye, I could also perceive the chakras on my palms. They looked very much like the Buddhist Dharma Wheels and they were brown in colour.

I felt Siddha Patanjali getting me to breathe deeper, so as to open up my channels wider. Soon, the energy in my hands got stronger. I felt my right and left index fingers touch my thumbs on both hands, and then my right hand moved upwards while my left moved downwards.

At this point, I intended for the energies to be sent to all who needed it and the people whom I’ve touched. An altruistic feeling welled up in me where I just wanted to surrender my body for the betterment of mankind.

At the end of it, I saw, in my mind’s eye, an image of a thin man squatting and looking right at me, his knees supporting his arms, and he was smiling almost cheekily. Siddha Patanjali also asked me to call upon him when I do my healing work.

Goddess Nambu Nayaki (Rameshwaram)

At Goddess Nambu Nayaki, all I felt was energy in the head area and lots of tingling in the hands.

Siddha Agastya’s Cave (Coutralam)

While meditating in Siddha Agastya’s cave in Coutralam, I felt his light body figure to be standing at the upper right corner of my right eye, while there was a lot of tingling in the hands.

At one point, I may have gotten the impression that he brought me back to the time when he meditated here in the cave. I could also perceive his smiling face in my mind’s eye.

Suddenly, a mantra started playing in my head. At that point, I didn’t know the name of the mantra and it was only after talking about it with my group mates that I realised it was the Gayatri Mantra. I couldn’t help thinking if the Gayatri mantra had some significance with Siddha Agastya.

Goddess Shenbaga Devi (Coutralam)

At Goddess Shenbaga Devi’s shrine, like rain pouring heavily on a car
windscreen, I perceived her energy as white light pouring down my inner vision.

As my body swirled in a circular motion, I felt the goddess ask me to stretch my hands out in front of me, as though putting them into some energy "oven", and they tingled so heavily, especially over my left thumb and lower palm.

**Dakshinamurthy Swamigal (Kumbakhonam)**

At Dakshinamurthy Swamigal's Shrine, after lighting the ghee lamp in front of me, I felt him guiding me to bless my chakras with the fire from the lamp.

When I began to meditate, I felt strong energy at the head. He seemed to be strengthening the Third Eye and Crown chakras. I felt my connection to the divine given a boost as my Sushumna channel was opened even more.

And then I started to perceive his energy as patches of white light. His energy seemed more "galactic" rather than "earthly".

At the same time, while imploring his help, I found myself bringing out even more than my intended desires. I felt he was prodding me to do this and this is a pertinent point in spirituality: God can only help you if you ask. God will never infringe on your free will.

Hence, it was important that I asked about all my desires so that he could get to work on them.

**Temple where Siddha Agastya resides (Kumbakhonam)**

At the temple where Agastya resides, while meditating on him, his energy came in waves. I felt it very tangibly in my hands and body.

At one point, I even felt Agastya – his energy body – enter my body. That’s when my head, which was leaning against a pillar, moved to a position in line with my spine. My right hand then took the form of the blessing mudra, and I felt Agastya sending healing blessings to each one of us.

I also had a message wanting to come through from Agastya: “You all came here from so far away. It is an honour to meet you face to face.”

**Sri Vijayeendra (Kumbakhonam)**

At Siddha Vijayeendra's *samadhi* shrine, all I felt was a calm and grounding feeling, with my hands heavy.

**Siddha Thirumoolar (Kumbakhonam)**

My experience at Siddha Thirumoolar’s Shrine was most memorable. Already as we walked the huge courtyard towards it, I could feel that the energy here was strong. I even felt some goose pimples.

When I meditated, I dare say I felt a touch on my left palm. It was as though a finger gently graced my palm. Perhaps Siddha Thirumoolar wanted to show his presence this way.
Walking out, we also took many photos of the courtyard. Most of which had orbs appearing in them.

**Sri Sheshadri Swamigal (Thiruvanamalai)**

At Sri Sheshadri Swamigal’s Shrine, I saw lots of yellow light in my inner vision. I felt the energy grounding me in my hips downwards, and my hands were heavy.

When I asked for his help in my healing work, he said, “By all means, call upon me.”

**Siddha Idaikadar (Thiruvanamalai)**

At Siddha Idaikadar’s samadhi shrine, I saw a purple-magenta flower while meditating. Because we were also in the presence of Mount Arunachala, I asked for the purification of Karma.

I then received a message before we left, which I felt wasn’t just for me but for all of us: “Know that you are worthy. Claim your power. You deserve love, wealth, success, and power.”

All in all, it was a great trip and a memorable experience. I’d just like to thank Vijay and the rest of team for organising this. And not forgetting the Siddhas who are ever so present.”

Siddhi Powers Trip Highlights

* 5-day meditation intensive across South India featuring extended meditation and communion sessions at each samadhi shrine in order for you to get the blessings you seek, i.e.:
  - Blessings to attain siddhi (supernormal) powers; and/or
  - Answers to your personal request by these powerful Siddhas (for example, for a health, relationship, financial, spiritual miracle/boon)

* Karma-busting at Rameshwaram (Sea of Rama bath + bath at 22 karma busting wells)

* Healing & purification herbal bath at the sacred Coutralam waterfalls

* Serve as an Ambassador of HoPE and bring joy to the children of Tripura Foundation’s HoPE Centers. Where possible, we will visit a HoPE Center a day.

Your Commitment Required

* Be open and committed to doing what it takes to:
  1. accelerating your personal evolution
  2. pushing the boundaries beyond the limitations of your 5 senses (sight, smell, hearing, touch, taste) in activating your own supernormal faculties

* Be willing to sit in meditation / communion between 1 to 2 hours at each of the Siddha samadhi shrines we will be meditating at. This is important because we will be meditating closely together as a group at such samadhi shrines. If you are not willing to sit in silence for 1 to 2 hours and know that you will get restless, this will disrupt the meditation of other trip attendees.

☞ For the Siddhi (Supernormal Powers) Powerspots Trip, group consciousness i.e. functioning together as a group, is **KEY**

Siddhi Trip Highlight #2: Mohini describes her extraordinary communion with Siddha Guru Dakshinamurthy Swamigal at his samadhi shrine

Extraordinary Communion with an Ascended Master by Mohini

I’m writing to all of you from India, as on Monday, September 10, 2012. I have just returned from visiting the Samadhi shrine of Sri Dakshinamurthy Swamigal with Dr. Pillai. This shrine is one of the highlights of Part I of the 2013 Birthday Trip 'Light Body Exclusive'.

This was Dr. Pillai’s first visit to the shrine. He declared this is as the most powerful shrine he has ever visited, and is tremendously impressed with the power of this saint.

“You cannot open the chakras (energy centers in the subtle body) yourself. However, this saint can open them for you. Go to this place, sit for a few minutes, and experience miracles”, says Dr. Pillai.

Dr. Pillai himself received some profound messages regarding his service to the world, and communed with both the saint as well as other Divine beings.

I had the honor to visit this shrine several months ago on my own, through special instructions from a powerful Jeeva (Living) Nadi reading. My experience at this shrine is very profound. The first time I visited, after sitting in meditation a prescribed duration of time, my breath and awareness merged into Unity Consciousness.

During this visit, when I sat in meditation, the saint entered my body and began to breathe for me - the breath easily moved to the top of the brain, my kundalini was activated and my crown chakra opened. Then, the saint began to give predictions regarding Dr. Pillai’s key role in the transformation of the world.

This saint is very much alive in this Samadhi place, he lives eternally under the Siva Linga in the shrine. He was born fully omniscient and had amazing Divine powers to even raise the dead.

It is a blessing to be able to visit this place and commune with this saint to obtain an initiation into the process of the body’s transformation into light, and for spiritual evolution and divine messages.

Our Siddhi Powers Trip is also an Ambassadors of HoPE Trip

As our Siddhi Powers Trip is organised in support of Tripura Foundation, Dr Pillai (Babaji’s) US-registered 501(c) non-profit charity organisation, the Siddhi Powers Trip will also be in part an Ambassadors of HoPE trip.

As a Tripura Foundation Ambassador of HoPE, you will serve as a beacon of hope and inspiration to the HoPE Center children you will be visiting. Your mission is to spread love joy and happiness to the children at these HoPE Centers and to show them that people all over the world care for them.

You will get to visit several HoPE Centers to see for yourself how the destinies of poor children are being dramatically changed. Thanks to Dr Pillai’s simple but powerful Phonemic Intelligence techniques, such children no longer have to embrace their destinies as road sweepers, cooks, cleaners and attendants. Instead, HoPE Center children have now the courage and confidence to aspire to be doctors, engineers and beneficial members of society.

We are inviting you to introduce the HoPE center children to new cultures and to the world beyond their rural village by sharing with them about your home country and what you do there. You will have the opportunity to learn and see for yourself how Tripura Foundation’s HoPE Centers and their other initiatives are changing the lives of thousands of children on a daily basis.

You will also help in the distribution of meals to the HoPE Center children. As Dr Pillai (Babaji) teaches, “feeding a hungry human being brings you the highest grace from God.”

Read the testimonials from our past attendees: ANTHONY, JOY, SEAN, VISHNU & LAKSHMI about their encounters with the Siddhas masters during our most recent Siddhi Trips in June & December 2015

Note from Vijay: We were blessed to have Anthony (a gifted healer and channeller), join us for our Dec 2015 Siddhi Trip. On this Siddhi trip, we received a validation of what we seek to do on our Siddhi Trips i.e. to commune with Siddhas and receive their blessings to develop our own siddhi abilities. On our Dec 2015 Siddhi trip, Anthony directly channeled messages for the group from two different Siddhas masters who were in their non-physical form i.e. Siddha Thirumoolar & Siddha Venkataraman. Both Siddhas expressed their gratitude that we had come to visit and honour them and in return, both blessed us each with a boon that we wished fulfilled.

I believe the Siddhas have always been happy to see us on each Siddhi trip, even though they have not been able to speak to us directly since they reside in a different realm and most of us are unable to perceive them normally. However, since Anthony is a channeler, the Siddhas took the opportunity to speak to us through him and convey their blessings.

My gratitude to Anthony, Joy, Sean, Vishnu, Venkat, Sumathy and Lakshmi for sharing their private experiences with the Siddhas.]

ANTHONY shares his encounters with the Siddhas

“I was part of the group that went on the Siddhi Powers Powerspot Trip in December 2015. I went prepared to expect the unexpected and be open to whatever experience I may have. In the short 5 days we visited a total of 10 Samadhi shrines and/or temples and I would like to share my experiences at some of the places we visited.

At the Siddha Patanjali Samadhi Shrine as I sat in meditation, I asked Patanjali to bless me with Siddhi powers in order to help others. A voice, whom I assume to be from Patanjali, said “Bullshit!”

I was taken aback – a Siddhi master said that? Anyway, I reply that it’s really what I want. Again the voice said “Bullshit!”.

After some thought, I said that I want it for myself as much as I want to help others. This time Patanjali said “That’s more like it!”

That set the tone for the rest of the trip. Be true to what I really want and ask accordingly.

Next we visited the shrine of Goddess Nambu Nayaki.

As she is the goddess of healing, I asked for healing for myself and the ability to help others. My hands started to pulse with
strong energy and she gave me a personal message regarding healing which I can use on myself as well as on others. Also, she told me that I don’t need the cushion to sit on anymore.

I have a problem with my lower back which prevents me from sitting on the floor for more than a few minutes at a time. Sitting on a cushion allows me to sit for longer periods on the floor. For the rest of the trip, I could sit on the floor for long periods without having pains in my lower back. No need to carry the cushion around with me anymore.

At Goddess Shenbaga Devi Shrine, I was filled with a strong energy coming down from the top of my head all the way to my feet. She said to me “Don’t fight it.” I answered “I’m not. I accept it fully.” She said “So be it” and she’s gone.

I then asked for Siddhi powers of healing for myself and others. I didn’t have to wait long for a response. She asked me to stretch out my hands in front of me and clap. This was repeated 3 times and after each clap, I could feel the energy around my hands getting stronger and stronger. After the third clap, she gave me further instructions. I now incorporate what she told me into my healing practice.

On the third day, we first visited the Sri Guru Dakshinamoorthy Swamigal Samadhi Shrine. To me, this was the most important shrine of all. This is because the visions I saw and the messages I received validated what I’m doing in my healing practice.

Also, he is the only Siddhi Master who invited me to call on him should I need his assistance.

At the end of the meditation as I placed my oil lamp onto Dakshinamoorthy’s shrine, tears flowed down my face and I could feel a strong bond with Dakshinamoorthy.

At the Siddha Agastya Samadhi Shrine, as soon as I started meditating, Agastya came and asked me if I like to fly. I answered yes and immediately we were floating above the clouds where he asked me where I would like to go. I said Perth where I could see my grandsons. He said that it is too easy and he’ll bring me instead to a place where not anybody is able to go because it does not exist in the physical plane. In the next instant I found myself facing an ancient looking wall. I looked around and I realized that we were outdoors and we’re in a long corridor with pillars on both sides. I commented that there’s nobody around. Agastya said that I’ll see them only if they want to show themselves to me. Who “they” are, he didn’t say. He said this place is important to me.

Then in a flash I’m back at the temple and when I open my eyes, I saw the other members in my group are getting ready to leave.

The last stop for the day was at Siddha Thirumular Samadhi Shrine.

As we were meditating, Thirumular spoke to me and said he want me to channel him so he can speak directly to the group. I said “No” as I don’t know who’s speaking to me. When he asked me again, this time I agreed because I sensed it was Thirumular. It was a gentle request – not demanding at all. So I channeled him and he spoke to us.
Basically, he wanted the group to know that he is happy and honoured that we came to his shrine to pay respects to him. He knows that we came with a wish in our hearts and he will grant it if we ask him. He has the power to grant our wishes for he is Siddha Thirumular! Siddha Thirumular is revered as one of the greatest Siddhas from the 18 Siddha Tradition.

Day 4 found us visiting the Siddha Venkataraman Shrine. During meditation, I received a message from Siddha Venkataraman for the group, which was:

“You honour me with your presence and respect. I, in turn, will bless each one of you with a gift which you will need in your life. It will manifest when you have a need for it. Be one with the Universe and the Universe will bless you with much joy in your life.”

We ended the day with a visit to Sri Idaikadar Samadhi Shrine. Since he is the “Gate Keeper” to the Siddhas’ world, I asked him for permission to gain entrance to the Siddhas’ realm. Idaikadar said Siddha Dakshinamoorthy vouched for me so I’m free to enter. I felt very blessed by this.

I also asked that my 3rd eye be opened more fully. At this request, I saw myself being engulfed by flames after which the flames were replaced by white light. I interpret this as a cleansing process.

Day 5 of our trip was our last day and we visited the Sri Angali Temple. It’s a very interesting place to visit. The pillars of the temple are magical and powerful with a Siddha master living in each pillar.

Goddess Angali grants Siddhi powers to those who performed 1008 rounds of pradakshina at her main sanctum sanctorum. Of course we didn’t manage that. We barely managed 9 rounds before we had to leave because the temple was closing. This is much earlier than usual and we didn’t even had time to do our meditation.

As the day was auspicious one for Ganesha to grant one’s wishes, we participated in a homa in his name.

In summary, this trip was an eye opener for me and a very profoundly enlightening experience – much more than I could ever expect. I learnt much and received much. Imagine communicating with Siddha masters. Mind blowing!

Back home, when I ask to connect with the Siddhi Masters, they always let me know that they are present. For example, there were some confusion in my journal and to ensure that this testimony was correct, I called upon Siddha Agastya and Goddess Shenbaga Devi for confirmation in the accuracy in my recording of the actual events at their shrine and temple respectively. I had to make corrections to my journal!!

In conclusion, I must express my heartfelt thanks and gratitude to Dr Pillai and especially to Vijay for organising the trip and guiding us throughout the whole trip and also to my group members for making this trip a very enjoyable one.”

JOY shares her messages from the Siddhas

“I am JOY from Singapore. This is my first Siddha Trip (December 2015). Here is my experience of encountering the Siddhas.

On the 2nd day, we were at Coutralam. There was a light drizzle on our way to the Coutralam waterfalls. To me, this was a blessing. It took us between 30 to 40 minutes to climb up to the waterfall. The mountain waters were gushing down wildly from the waterfalls and it would have been too dangerous for us to take a bath or to walk up to the cave where Siddha Agastya’s shrine was.

Standing on the rock next to the waterfalls and admiring the waters gushing down I had a message from Siddha Agastya (the Leader of the Siddhas). He said, “Everyone who is here are blessed.” Siddha Agastya also asked me to convey a personal message to a lady member in our Siddhi Trip group. After that we had a short meditation at Goddess Shenbaga Devi’s temple.

On the 3rd day, we went to two temples – one of them was at Kumbeshwarar Temple and the other was at the Arakara Temple. While I was meditating at Siddha Agastya’s secret samadhi shrine at Kumbeshwarar Temple, Siddha Agastya gave me a message that I should not be eating chillis – he knows that I am a chilli queen!

When we meditated at the Arakara Temple (the location of Siddha Thirumoolar’s samadhi shrine), I started to tear as soon as I sat down. Then I heard Siddha Thirumoolar say to me, “I am happy you are here. Connect with me – call upon me when in need and I shall bless you.”

Feeling very touched by Siddha Thirumoolar, I couldn’t control my tears anymore and my tears kept rolling down and I was sobbing. Soon after that, Siddha Thirumoolar channelled His message to everyone through one of our group members.

With all the blessings from the Siddhas, I now find myself more focussed during my meditation.

I would like to take this opportunity to thank Babaji, Vijay, Mohini and all those who had made this trip a success and will recommend any one who has the calling to go and have your experience in the upcoming trips. Thank you very much.”

"Hi Vijay

Here are some of my Siddha experiences.

Perhaps the biggest surprise for me was being able to hear messages very clearly from Siddhas that I didn't really know much about (Goddess Shenbaga Devi, Shri Vijayeendra).

Also it was very special to go to Siddha Patanjali's & Siddha Tirumoolar's samadhi shrine as well as Siddha Agastiya's meditation cave.

My Experiences At Each Siddha Samadhi & Goddess Shrine During The Siddhi Powers Trip

Siddha Patanjali (Rameshwaram)
I was a bit overwhelmed to sit in front of Siddha Patanjali (Father of Yoga) as I had practiced yoga a lot some years back, and read the Yoga Sutras. I was shocked to feel 2 posture re-alignments when at the temple. I noticed that I was now sitting like Patanjali in the temple photo!

I was also a bit timid in asking Siddha Patanjali for assistance, despite Vijay guiding us to ask. So I was quite amazed that I received a message "Be confident I will come & help ".

This was very re-assuring & quite humbling!

Goddess Shenbaga Devi (Coutralam)
When I sat before Goddess Shenbaga Devi, I was concerned that I had upset the Goddess & she was asking me to leave her temple. She said to me laughingly "Go out & love"!

I was not sure what she meant so I asked again. She smiled & said the same message, so I said thank you & departed, a little confused.

Later in the day I realised she was challenging me to love others & leave judgments behind, as I had this personal focus of being more loving to others for some time. I realised that Goddess Shenbaga Devi wasn't angry with me after all, but was playfully reminding me of what to do!

Siddha Agastiya's Cave (Coutralam)
It was unbelievably hot inside.

Energetically, I felt like I was burning from the inside out & I tried to remove my shirt. I wasn't able to so I started to concentrate intensely on asking Siddha Agastiya for assistance.

The heat lessened & I was able to receive a message. I saw a poster with the words "Practice, Patience, Perseverance".

I also asked Siddha Agastiya if one must be a vegetarian & Siddha Agastiya's simple response to me was "It is better". Siddha Agastiya was very loving & non-judgmental.

Guru Dakshinamurti Swamigal (Kumbakhonam)
I felt intense heat & deep concentration. Guru Dakshinamurti Swamigal's samadhi shrine was such a beautiful temple. Amazing level of peace & serenity there.
Siddha Vijayeendra (Kumbakonam)
There were many people at the temple & musical instruments playing. So it was very noisy. I was therefore very surprised to hear a very distinct voice (Siddha Vijayeendra) answering my questions. He advised me to consider a business involving travel. He also told me I could make money with land but not share trading.

Siddha Tirumoolar (Kumbakonam)
I felt intense heat. I stayed meditating as long as I could, then took in the murals on the ceiling of Tirumoolar’s life.

Shri Shesadri Swamigal (Thiruvanamalai)
I was meditating just outside the temple entrance & a priest sprinkled water on me! It brought me back.

Goddess Angali Amman (Chennai)
I felt intense heat & strong meditation.

My Siddha Experiences After The Trip (When I Got Back Home to Sydney, Australia)

I had meditated in the morning & took a bush walk to some cascading water in a creek.I sat on a rock & started to ask Siddha Vijayeendra some questions. Siddha Vijayeendra provided some advice re shares to buy. Presumably longer term, not trading which he warned me off in India. My friend also asked for some help so I passed on Siddha Vijayeendra’s advice to her concerning where she should live.

After meditating in front of the Siddha photos (including doing their mantras), the Siddhas challenged me and my commitment to my own development to go on the Light body trip in India in September 2015, which I had been pondering. They said, “It’s 4 days - Come on!” (I am in Sydney, Australia so it is a day to get there & a day back to India).

I was looking at the Siddhas’ pictures & photos and they seemed to glow, with their eyes looking real.

After the Siddhi trip, the Siddhas continue to guide me in my daily work life…

I had a colleague who was very challenging to work with. By this I mean he created a lot of unnecessary work for me & other staff. I had spoken with my manager and he advised there was nothing we could do, as his services were contracted & his manager was reluctant to replace him. I was speaking with him on the phone one day & he advised that he was leaving in three days and was very happy as he was going back to a role he was more familiar working in and more aligned to his skills.

I was at work & another team’s manager had sent me an email to work with one of her staff. I drafted an email which questioned & challenged her, and I was getting this strong message not to send it. I went back to the email a short time later & edited it, and still got the message not to send it. I then had this message that I had mis-interpreted what she was saying, so I went back & re-read the message. And I had misinterpreted her message. Phew!! I contacted the staff & we managed to sort the issue out quickly.

I have been looking at properties. I asked the Siddhas if I should look at ones. I decided to go along to one property that I got a "No don't go" as it was just near another property I was looking at. Interestingly the Siddhas were right because I didn't like the "No don't look at it" property at all. I asked where in Australia was good to invest for property & I saw a map of Australia with a few areas “shaded” in.” - Sean
**VISHNU shares his experiences with the Siddhas**

The Siddha HoPE Powerspot trip was truly an amazing trip! In fact, it was so special that I received a beautiful miracle even before the trip started! We received the blessings to be at 2 of the most powerful karma-busting sites in the world – Rameshwaram and Arunachala - as well as to visit the divine Coutralam Hills and to commune with the Siddhas at their Samadhi shrines. I received initiations and blessings from all of the Siddhas and my crown chakra was buzzing with energy.

The trip coincided with a heatwave in India, but we were blessed with cloudy skies for all bar the first day, so even the weather turned out pretty fine for us. At Siddha Patanjali’s samadhi shrine in Rameshwaram, I received messages for 3 of my fellow travellers, 1 of which later turned out to be very meaningful for the intended recipient. Siddha Patanjali also told me that should I ever face any challenges in life, I would just have to mentally “connect” to His shrine and He would take care of everything!

On our way to Coutralam, we saw 2 rainbows ahead of us, on our left and right. It seemed to us that we were about to enter a magical realm. About an hour before we arrived, Mahaavatar Babaji’s mantra, **“Om Kriya Babaji Namah Om”** started playing automatically in my head (Coutralam was where Siddha Agastiya initiated Babaji. The mantra started playing again in my head as we were climbing up the hill, and while we were meditating at Shenbaga Devi’s shrine), and I had an outbreak of goosebumps. That night, my roommate saw a Siddha (in his light body form) in our hotel room!

About an hour before we arrived at Sri Sheshadri Swamigal’s samadhi shrine, I started to tear. Actually I’d felt a connection with him when I first heard His name about 2 years before. When we were doing a *homa* (fire ritual) for Him at His ashram, I teared repeatedly. I received a message from Sri Sheshadri that He would put me and my loved ones under His “protection” and that He would help me succeed in anything - this gave me a lot of hope and comfort.

On the second half of the trip, the mantra **“Satyam Shivam Sundaram”** kept popping into my head. I’d heard the mantra in passing before, but never learnt what it meant. Later, I found out that it means “Truth-Godliness-Beauty”, and it also happens to be one of Baba’s favourite mantras.

My deepest gratitude to Babaji, Mohini, Vijay, Yadeesh, Rahul and Maheshwari for making this an unforgettable trip of a lifetime. All the Siddhas told me that my life purpose is to help people in any way I can – so, to fulfil my part of the bargain, I highly recommend this trip to anyone who is seeking spiritual advancement, because I believe that by going on this trip, you will speed up your spiritual growth massively.

LAKSHMI shares her experiences with the Siddhas

A divine trip of 5 days to multiple Siddha Shrines was made on June 2015.

I came to the mystical land with no expectation and returned home with so many surprises AND blessings!

When was told to share my experiences of the trip it took me back to the fond memories with Siddha and their blessings. Every stop at each temple was a fulfilling experience....

This Siddha trip is very important to me that has answered to many issues in my mind.

The mountains, The siddhas and their lives and so much of mystical surrounding their lives.

All the temples were have been established by a Siddha or God. These Divine places are evident with the energies they hold hundreds of years of worship and practices.

I remember Vijay posted a you tube video of Dr. Pillai mentioning that one must have permission from Siddhas to enter their scared abode at Coutralam, and I felt I was worthy to come to these places to strengthen the understanding of subtle love and guidance of these loving Siddhas to a seeker like me.

The best gift I received and made me speechless for few days upon return to Singapore. That too as I was still vibrating within the Grace of each Siddha's temple visit made. I was initiated by 2 of the Siddhas with a mantra each. Both they sounded perfect and beautiful. It was a profound feeling, words alone don't do justice of how I felt.......

Many thanks to all who contributed towards this journey of collective conscious awakening.

Gratitude to Dr Pillai

May the Siddha blessings always be upon all.

What was shared here are my personal and deeper views.

These Divine masters and their invisible strong support will help one to realise.

And God works His miracles in every moment.

To those who have not been or thinking of going for Siddha trip, please ask God's grace to dissipate the darkness of your life, so that you will begin a journey of wondrous hope which will lead you to a joyful life with your loved ones.

Thankfully sending love and light,
Lakshmi
Testimonials from our 1st Siddhi Trip in December 2012

Dear all,

We're very grateful to Mohini, Vijay, Yadeesh and most of all, Babaji for this very memorable trip.

Although this is a sacred trip, it is remembered as one of the best and most enjoyable holidays I ever had. It's also a very memorable as its end of 2012 and the start of the Golden Age.

Both April and I did not expect to meet the Siddha Masters so easily. From our experiences, all of us can testify to their eternal presence; their Blessings and these are awesome unforgettable experiences.

Jai Gurudev,
April and Chay

Firstly I would like to thank Dattatriya Siva Baba, Mohini and Vijay, for their blessing to visit the Samadhi Shrine of the 8 Siddhas, and Goddess Sri Shenbagha Devi & Angkali Amman Shrine, and I would also thank the Siddhas who have given their blessing for us, to be with them & getting blessing for the coming year.

All the siddhas Shrines which we visited had a very strong energy pull.

- at Patanjali’s samadhi shrine, the moment I entered the Shrine, lot of tears were flowing from my eyes
- at Agasthiar’s samadhi shrine - while meditating from the 3rd eye I could see Siddha Agasthiar with a white dhoti
- at Thirumoolar samadhi shrine - my body was started to move from left to right. I later learnt it was a divine kundalini movement
- at Sri Guru Dakshinamurthy Swamigal’s samadhi shrine - after meditating, as I was leaning against Sri Guru Dakshinamurthy’s samadhi pillar, he made me bow down to His samadhi and perform Namashakar to his samadhi
- at Sri Vijayeendra’s, Siddha Iadikadar’s & Sri Sheshadri Swamigal’s samadhi shrine - I experienced a strong pull at the top of my head
- After the bath from Coutralam & prayers from Sri Shenbagha Devi’s temple, I dozed off and in a vision, I saw a yellow flower being dropped into my hand.
- at Goddess Angkali Amman’s Temple - while I was walking around Her shrine, during the 3rd round, the top of my head started spin and I believe it was my crown chakra becoming active.
- After the trip, when I returned home, while I was thinking about Goddess Angkali Amman with my eyes closed, all of a sudden, there was golden coloured lion in front of my eyes.

May the blessing and the grace of the Siddhas be with all of us.

Regards
Thanes
