

## First On Air!

With **CopperHead™ 3050** from Telecast Fiber Systems, covering breaking news in HD has never been easier – or more affordable! Whatever the story, fiber lets you go the distance without the weight, cost, or worry of copper cable.

- Robust and reliable fiber optic connectivity for ENG and SNG operations for all sizes and budgets
- Compact camera-mounted transceiver delivers uncompressed HD video and broadcast-quality audio camera signals
- Return feed for off-air video, intercom, and IFB, with Ethernet connection back to truck
- Uses military grade and battlefield rated tactical fiber cable: stronger and lighter than copper!
