DESCRIPTION: This is a nice reconditioned vintage Bear 76er take-down bow. Red magnesium riser with white solid fiberglass limbs. Stabilizer insert. The limbs simply slide and lock into the limb pockets. They move a little when unstrung (were made that way), but tighten and don't giggle when strung. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in good condition. No drilled holes; No chips, dings or cracks. A few minor scratches and nicks here and there; and some original finish loss. Silver Bear medallion. Comes with a new rest and string as shown.
