School is out and summer is officially here! Please be mindful of the possible extra foot traffic in the area and make sure you are on the look out for kiddos on bikes and crossing the streets! Parents please remind your kids to look both ways before crossing the streets!

## Water Conservation Tips

### Inside

- \* Do run the dishwasher and washing machine only when full. Save even more by using the short cycle
- \* Don't let the water run while washing dishes. Kitchen faucets use 2 to 3 gallons a minute. Filling a basin only takes 10 gallons to wash and rinse

### Outside

- \* Don't allow sprinklers to water your street
- \* Only water your lawn or plants before 9am or after 7pm
- \* Place 3-4" layer of mulch around trees and plants to retain moisture to keep the soil cool

### Bathroom

- \* Do take short shower and save 5 to 7 gallons a minute
- \* Don't run the water while shaving, washing your hands or brushing your teeth. Faucets used 2 to 3 gallons a minute

### Everywhere

- \* Do repair leaky faucets and turn taps off tightly. A slow drip wastes 15 to 20 gallons each day
- \* Don't open fire hydrants

Reminder to let City Hall know if you have changed your phone number lately! Give us a call, send us a message or jot it down on your utility bill if you would like to but please make sure if your number has changed to please let us know!

You may have noticed the extra equipment and Goins Enterprises around town, they are part of our 2023 Water Project. The project got started in late April and is still continuing on, they are making great progress and in the month of June our Water Tower is getting cleaned and painted as well! If you have any questions about the project you are more

than welcome to give us a call at City Hall or swing by! If you see Michael, Craig and Jerad out and about you can ask them as well!

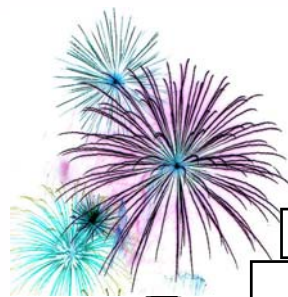

**The Moran Police Departments encourages you to always remember your outdoor pets ....**

Summertime humidity and high temperatures are just around the corner. These weather conditions require extra care for your outdoor pets.

- ◆ Never leave an animal in your vehicle, as temperatures inside a vehicle can reach well over 120 degrees in a matter of minutes.
- ◆ Be alert to the signs of heat exhaustion. Look for excessive panting or general lethargy, which may be signs your dog is overheated.

**Always be certain outdoor pets have access to plenty of shade and fresh water.**

Reminder to all residents that there is a Food Box Distribution on the First Friday of each month at the Moran Senior Community Center. The giveaway starts at 1:00pm

and is a drive up. There are no income levels or any identification needed to pick up. Thank you to all of the volunteer's who spend their time making sure our community is taken care of!

**~SUMMER LAWN CARE TIPS~**

- When mowing, leave the blades of your grass slightly longer by just a couple of inches. This will help shade their roots and reduced moisture evaporation from the soil. So raise the blades on your lawn mower.
- Consider letting the grass go dormant in the summertime.
- Water early morning, very early, like at 5 a.m. This gives the lawn an opportunity to dry before nightfall, a time when certain types of fungus are most active. This is also usually a non-peak time for most communities' water supply.
- Hold off on the fertilizer this time of year, as this would only promote growth, which means more watering and mowing.

*The City would like to remind homeowners to mow your grass in a manner so that the grass is not blown out onto the roadway. Grass accumulation on the roadway can damage the structure of the roadbed as accumulated grass clippings hold water and blocks proper drainage, thereby causing subsequent road deterioration.*
