Agenda Item 1: Prioritize goals of the IZI engagement process

Larson stated that Marnita’s table would like the groups to prioritize potential outcomes of the IZI process. This will help them structure the event to achieve those goals. Larson handed out list of possible goals. After discussion the group decided their priorities were:

Priorities:

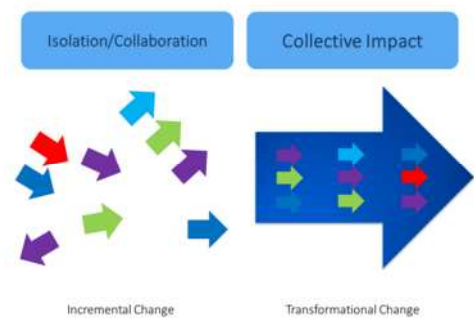

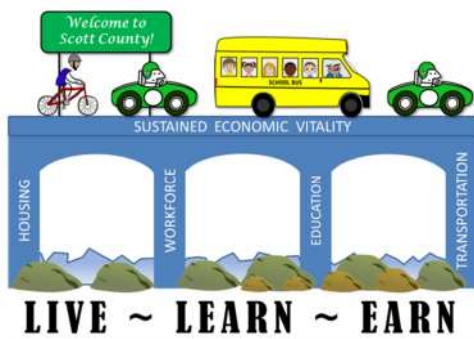

1. Identify and learn from a spectrum of voices, collect stories of impact and outcomes, take action!
2. Disseminate relevant information and catalyze conversation as change agents, leaders and innovators by “adding more seats at the table”
3. Build reciprocal social networks and social capital; inspire partners to catalyze their own resource networks to address change.

The group thought it was also important to figure out how to provide information about existing transportation services at (or newer) these IZI sessions.

They also thought there should be some clear expectations communicated to the Work Group members who participate in the IZI's.

Transportation Working Group Vision Statement:

Improving commuter options and efficiency; exploring transit and infrastructure improvements.
