****Note: When placing your cakepop order please state if you would like them prepared "Traditional" or "Non-Traditional".*

Traditional means a cake has been fully baked, cooled, crumbled and mixed with frosting to be shaped and dipped. This method has more of truffle like texture and taste sweeter.

Non-Traditional means the cake batter is poured directly into a cakepop baking form, baked and then dipped. This will have more of a cake texture inside and will not be as sweet.
