Balanced Harmony through Massage

Three VortexHealing® Practitioners, Donna, Elizabeth and Sandra provide 30, 45 or 60-minute healing and balancing sessions. VortexHealing is transmitted to VortexHealing practitioners through the Merlin lineage. The energy of VortexHealing is powerfully transforming and healing. Bring us your healing intention and receive Merlin's channeled energy.

Over the course of a 40 year career in mental health and clinical practice, **Donna Morrish** has developed an integrative spiritually inspired approach, that helps people make the changes they really desire. She weaves together energy healing, body-mind practices and neurobiologically based interventions to heal patterned responses and outmoded strategies.

Sandra Blaha is a skilled healer, coach and guide. She channels Exalted Light and is a certified Crystal Resonance Therapist (CRTh) and VortexHealing® practitioner. She also facilitates and channels the Andromeda Gateway experience.

An Aquarian she embodies the best of that sign. An unusual, eccentric, intuitive force Aquarians bring a relationship to all mental (air) functions that are beyond the norm – innovative, unconventional approaches and brilliant crystalline intelligence from the distant stars. Aquarius is the 'progressive one' shattering old structures, shaking your tree to aid you in evolving and moving forward, making conceptual leaps

through science, technology or the quantum fields.
