Meet our Panel

Fargo Khoury, MD

Dr. Khoury was born and raised in Southern California. He completed his PM&R residency training at Loma Linda University Medical Center. He spent the first 6+ years working inpatient and outpatient rehabilitation at Eisenhower Medical Center where he saw numerous post-stroke and SCI patients. He currently practices at an independent rehabilitation facility in Murrieta, CA.

Cissi Wimberly Oloomi MSN, RN, CNS, FNP, CNRN, CRRN

Cissi Wimberly Oloomi has over 40 years in various settings of the specialty of neuroscience and rehabilitation nursing, including acute & chronic care of the SCI patient. She worked as an SCI service line Clinical Nurse Specialist and Nurse Practitioner at a VA Spinal Cord Injury Center. She is a published author & also a co-editor of chapters in the neuroscience nursing core curriculum.

Linda M. Schultz, PhD, CRRN

Linda M. Schultz focuses on Physical Rehabilitation Nursing and Research. She structured the groundbreaking Christopher Reeve recovery project and currently is Nurse Linda for the SCI Community. She is an advocate for individuals and families with SCI and work with healthcare providers in research and quality improvements projects.

Ryan Gebauer

Ryan Gebauer is a C3/4 complete tetraplegic; he was injured as a result of jumping out of a tree into a canal 25 years ago at 16 years old. Graduated Florida Atlantic University with a Masters in Business Administration. Founding member of the largest SCI support group in Florida, Spinal Cord Injury Support Group of South Florida. Ryan has been working with Alliance Labs as the National Community Relations Advocate since 2014.
