

Dear Parents and Students of JDSC:

As we resume Behind the Wheel (BTW) instruction, we are adopting the following protocols. Please review and assist us with adherence where applicable.

1. All instructors will practice social distancing while instructing, outside of the vehicle and when conversing with students and/or parents.
 2. Instructors will use disinfecting wipes to wipe down the steering column, E-Brake, and dash area between each student taking the driver seat.
 3. Students will continue to start and end each BTW session in their assigned school's parking lot. Student's will not have access to enter the school.
 4. Required face covering (mask, bandana, etc.) will be worn at all times when with a student.
 5. Parents please take your students temperature prior to each BTW session and share with the instructor at each session.
 6. Windows will remain slightly open to move outside air through the vehicle while occupied.
 7. Hand washing is required before the session, as needed, and when a student is switched into the driver's seat.
 8. Gloves if worn must be changed out each day.
 9. Student must be rescheduled if showing any signs of illness, or running a fever.
 10. All of the student's personal items including cell phone will be stored in the trunk throughout the duration of the driving session.
- At this time, we cannot begin any in seat classroom instruction and on-line instruction is currently being evaluated. We are resuming BTW to help minimize the backlog of students.
