

Hi Friends,

Working at Jump! has been fast paced, interesting, and a ton of fun! While I did not have a background in gymnastics before I came here to Jump!, I have a very strong background in athletics. Aside from coaching here, I am a senior at the University of Texas majoring in Sports Medicine and am hoping to further my education in that of Occupational Therapy after graduating. Working with people and children of all ages in athletics is something I love to do and am very passionate about.

During my classes, while I make sure children are having fun by incorporating the current theme, I put a big focus on more technical things such as form, overall strength, conditioning, and repetition. I love being able to see the accomplished look on a child's face when they achieve a skill or routine that they have been working so hard on. I also have a big focus on a "team" mentality. Teamwork makes the dream work!

Communication is something that I find very important as well, so I will always do my best to stop by and talk about anything regarding your child's progress and more. Don't hesitate to stop by and chat with me before or after classes!

Fun fact: I have a little Pomeranian named Skipper and am ALWAYS finding a reason to show a picture of him to others. I also have a horse back home with my parents and love horseback riding!
