This is an important club rule which is for the club's insurance Policy requirements. **Failure to do so Can Result in TERMINATION of Membership**

**Securitas:** Shippingport Nuclear Plant security firm has a contractual use of the outdoor range facilities that does take precedence during their scheduled times of the week. (see website or club post board for closure schedule). They are generally very cooperative with our club members about use of the range when they are there, but, there may be times when they may ask club members to not be there so PLEASE be understanding. They are Training for the defense of the nuclear plant against hostile attack.

### GVSC Rules of Etiquette & Sportsman - like Conduct
