

***Make a difference in the lives of those who need it the most!***

## **Professionals Needed for November 2016 Clinic**

### **Medical, Dental, Vision**

Remote Area Medical (RAM) will operate its second mobile dental, vision and medical clinic in Bradenton, Florida on November 11, 12 and 13, 2016. Last year, we helped over 1,100 patients, the majority of which received much-needed dental care.

With more professionals on hand we could have helped many more! RAM had the equipment, resources and support staff available, but lacked the professionals necessary to provide the much needed services to the hundreds of others who had to be turned away. With your help and that of other professionals, we hope to serve over 2,000 patients this year.

### **Veterinary**

In addition, RAM Florida is collaborating with a collective partnership of local animal shelters, organized by Animal Network, to provide its first veterinary clinic at Braden River High School on November 10. Veterinarians and vet techs are needed to do wellness checks, vaccines, and micro-chipping.

### **Join your colleagues on the front lines.**

You can make a tremendous difference in the lives of our underserved population - the people who need it most.

Please register to volunteer for one day or for the entire clinic.
