# In Rosey's Words....

Trio's Italian Grille

There's a new act in town! A great restaurant that started out as Italian take out, now expanding into a full restaurant.

The takeout restaurant has two tables for four in the lobby and a

friend and I chose to 'dine-in.' A clean establishment!

The food was remarkable, including dessert!

I ordered the Lemon Thyme Veal Breaded, sautéed in white wine, garlic, capers, spinach, and a side of pasta in a lemon cream sauce with pecorino. So awesome!!

And of course, a cannoli for 2, one for each of us. All homemade, including the cannoli filing, which was decadent!

Ten entrees with a salad included as well as sandwiches and fries such as the Black Truffle Burger, Subs, Parmes, Meatball,

Caprese and Funghetto!

My friend ordered a pizza, which was very tasty and personally created.

The appetizers looked terrific, like Arancini, Firecracker Shrimp, Burrata Bruschetta and more!

Soups and awesome salads were on the menu, and even a 'kid's' menu.

Chocolate cassata cake, tiramisu torte, and peanut butter brownie cheesecake to name a few.

The pricing is appropriate, \$6.95 desserts, \$5.95 kid's meals, and full entrees from \$11.00 and up.

The take-out was very busy as

well.

The owners are chefs Dino Maio, Adam Mitroi, George Mitroi and a lovely daughter waitressing.

Dino is from the Campobasso region of Italy, and the Mitroi's have taken the combination of the owners culinary passion of dining and great food to a new level.

I can't wait for the expansion into a multi-seating endeavor, as well as an extended menu.

George Mitroi peeked out from the kitchen to meet us, introduce himself and make light and fun conversation.

It was a joy to see the old-fashioned way of a chef greeting his guests by taking the time to come out of the kitchen for a few

minutes, friendly and smiling.

Thank you for a really nice experience – my new friends!

Should you try Trio's – the hours are:

Wednesday and Thursday - 11 am to 8 pm

Friday and Saturday – 11 am to 9 pm

Sunday – 12 pm to 8 pm

# Bankruptcy 101:

*The Covid-19 Financial Fix that Works Fast*

The world changed in a day. Fortunes were lost in an hour. Financial security was exchanged for terror. A 2017 report by the employment website CareerBuilder found that seventy eight percent of American workers were living from paycheck to paycheck. This means that almost a full eighty percent of Americans need their entire monthly income just to cover their monthly expenses and they have no savings. Watch the news about how effectively the small business loans under the federal CARES act are being administered. Ask people you know how many of them have any of that whopping twelve-hundred-dollar government payment left or if they have even received yet. Do you think "things" (you know, life as we knew it) will be back to "normal" in three months. Six months? A year? Ever?

The only three economic realities we can rely on for sure are 1.) the spread and devastation of covid-19 is getting worse every day, 2.) the American economy (and probably the world economy, also) is going to be "bad"- to say the least - for an extended period of time, 3.) the virus is in control of the economy not us and 4.) the government cannot help you. If you do not agree with one or more of my "for sure's" then re-read the article six months from now. The bottom-line is people cannot even safely leave their homes- let alone- go back to work. Even if we could all get out there is no job to go back to. The bills will not stop. At some point, the utility companies will be able to disconnect service, the cost of food will skyrocket, collection activity/harassment will increase dramatically and so will stress caused illness. If you are one of the many people, whose bottom is about to fall out there is still hope. Do not allow yourself to lose your health (or, maybe, even your life over financial stress) because if that happens you will not be able to fix your life. If you are healthy and maintain right thinking you will come out of this OK. I have seen it work thousands of time. Bankruptcy is a constitutional protection established for the purpose of helping the financially distressed person get a fresh start. To help people get back on their

feet and start contributing to the American economy once again.

Bankruptcy is the most affordable, fastest working, constitutionally backed legal mechanism available for Americans in financial trouble. Most importantly, bankruptcy offers powerful protections to people that cannot be had in any other way. Some of those protections are as follows:

1.) Protection of Assets: Once a bankruptcy is filed the Court protects many assets from being taken. It also prevents garnishment of wages. In almost all cases we are able to keep a person in their home, keep their cars, and all of their personal belongings to name just a few of the benefits.

2.) Protection from Creditors: Once your bankruptcy is filed, you receive a legal protection called an Automatic Stay. This "stay" prevents creditors and debt collectors from making contact with or trying to collect money from you. The automatic stay will stop foreclosure, lawsuits, wage garnishments, vehicle repossession, utility shut off, license suspensions for uninsured accident damage to another motor vehicle and more.

3.) Discharge of Debt: Upon completion of the bankruptcy your debt is eliminated and does not ever have to be paid back.

4.) Time to catch up on Payment: In many cases bankruptcy filers get a chance to catch up on payments that are overdue on your home, car, or other assets.

5.) Prevent utility disconnections: It provides you the legal authority to stop utility disconnections and the shut-off of essential services. It gives you the power to legally force the companies to reinstate (turn back on) services that have been disconnected.

6.) Re-build Your Credit: Bankruptcy clears up and resolves your debt, judgments, delinquencies, foreclosure and other bad marks on your credit rating and gives you a "fresh slate" upon which to re-build your credit. It also prevents creditors from coming after you years down the line for debts that are labeled "write offs" or "charge offs" by the bank on your credit report but that, unknown to most, are still collectible.

7.) It Works Fast: We are able to stop creditor harassment, lawsuits, foreclosures, garnishments,

repossessions and a whole lot of other problems FAST with bankruptcy. Bankruptcy is not like applying for a bank loan or government assistance. It moves fast. The protections discussed can be used the same day we file. Some of these protections like stopping harassing phone calls are available immediately upon giving us money down for representation.

8.) Peace of Mind: It will provide peace of mind during these crazy, unpredictable times which will prevent illness leading to even bigger problems. It gives you "breathing room" and a time to rest your mind and focus on the other aspects of your life that need to be addressed. And, most importantly, it gives you the legal power to protect your family.

9.) Predictability: You will get the relief and protection you need. We have done thousands of these cases and have a one hundred percent success rate.

10.) It is Covid-19 and Disability Friendly:

We can do it without you ever having to leave home.

11.) It is affordable: We make bankruptcy affordable to everyone by starting your case

for only \$300 down and letting you pay the remainder through an easily affordable, liberal payment plan.

Bankruptcy is about having peace of mind and relief now, but it is also about financial planning for the future. It is about re-establishing credit, keeping the lion's share of your property and resolving all of your current debt and bad marks on your record so that you will be in good financial standing in a few years. It is about a fresh start in life. Everyone deserves a fresh start.

Even though a bankruptcy is technically public record, the fact that you are filing bankruptcy will only be known by a few people who you probably will never even come in contact with- let alone know. It is not published in the local newspapers. The truth is that no one really cares whether you file bankruptcy anyway. They are too concerned with their own problems in these times.

I have often stated that bankruptcy is an act of love to yourself and your family. You do not need to live in fear of debt

collectors, lawsuits, losing your home or any of the other dreaded consequences of financial problems. You do not have deal with the unbearable anxiety of financial stress. We cannot cure your cancer, but we can cure your debt problems. We cannot develop a Covid-19 vaccine, but we can help you prevent the virus from financially devastating you and your family. We can help you regain your peace of mind despite the crisis. It is important to remind yourself that financial problems are temporary. They come and they go. This crisis will end too, like all things. But your health is permanent. Do not allow yourself to lose your permanent health over this temporary crisis and the temporary financial problems it causes.

Biales Delchin offers to start bankruptcy protection and stop bill collector harassment for only three hundred dollars down. If you think Bankruptcy might be able to help you, please call us for a free, confidential, no obligation phone or video consultation.

# Celebrating Our Strengths

Our strength is providing a service that helps our clients and their families.

Sometimes we get so caught up in caring for others we forget ourselves. And, in doing so we forget to honor our life and our loving relationship.

What are our strengths? And, what does that mean to you?

**Longevity with our caregivers** means your loved one gets the best of care—they are in the hands of committed and experienced caregivers.

**Mandatory special training each month** means your loved one gets the most up to date care—their needs are met.

**Special memory care activities** means your loved one's mental capacity is extended—their quality of life continues.

**Many of our caregivers have personally cared for their loved one** and that means they have been there—they know and understand the challenges involved.

**CPR trained and certified** means you can feel confident your loved one will get the best of care if there is an emergency.

**Mandatory virtual dementia**

**tour** means our caregivers can better care for clients with dementia.

Our service not only takes care of your loved one, but also helps you. You experience a sense of comfort knowing your loved one is in good hands. This peace of mind permits you to take a real break so you can relax, recharge and refocus. And, this allows balance so you can maintain your best self and a relationship.

We don't think we can afford a break, while the truth is, if we don't take a respite it will break us.

What if you could take a break and refocus, and renew the joy

you get from caring for your loved one? It could mean listening to understand more, having more patience and stopping the internal conflicts and doubts.

It means looking into the eyes of a loved one and seeing love reflected back.

We want to value and celebrate our relationships, strive to be our

best—a family that supports one another in good times and bad times.

## 5 REASONS YOU SHOULD CALL

Your loved one:

- is able to stay in their home
- gets that little extra help they need to keep them independent

- is provided companionship
- is provided respite care so you are able to recharge
- is safe

# Lakeland Student Veterans of America Chapter Again Top 5 in the United States

The Student Veterans of America (SVA) chapter at Lakeland Community College has been named one of the top five chapters in the nation once again.

Out of more than 1,500 total SVA chapters in the U.S.,

Lakeland's was named one of five finalists for the 2020 Chapter of the Year award during SVA's 12th Annual National Conference held online earlier this year. This is the second time the Lakeland chapter has been a finalist.

The recognition embodies the SVA's mission to provide the resources, support and advocacy student veterans need for success through and beyond higher education. It also acknowledges efforts in empowering chapter members

and creating positive change on campus and in the community as a whole.

"To make the top 5 nationwide in anything is a great honor and testament to our efforts," said SVA co-adviser Greg Truhan. "The chapter has overcome many obstacles thrown their way but has remained resilient."

Other finalists for this year's SVA Chapter of the Year award were California State University-Northridge, Clemson University (winner), Syracuse University and the University of Washington-Tacoma.

Lakeland Community College is committed to helping active duty personnel, veterans, reservists and dependents attain their personal and professional goals. Lakeland's Veterans Center can help with questions about educational benefits, advice on how to fill out and complete VA forms and much more.

Summer and fall registration is now open. For more information, contact the Lakeland Veterans Center at 440.525.7246 or online at [Lakelandcc.edu/veterans](http://Lakelandcc.edu/veterans).

## Audubon Satisfies Curiosity About Coyotes - Virtual Program May 18<sup>th</sup>

Blackbrook Audubon will foster a greater understanding for coyotes in a virtual program at 7:00 p.m. Tuesday, May 18. While the program starts at 7:00 p.m., Trevor Wearstler, the host and president of Blackbrook, will allow people into the meeting about 6:30 p.m. to familiarize themselves with the software features or to chat with other attendees.

Blackbrook Audubon covers Ashtabula, Geauga and Lake Counties as the local chapter of National Audubon Society. For more information, email [blackbrookaud@aol.com](mailto:blackbrookaud@aol.com). Follow Blackbrook Audubon Society on Facebook for updates.

# Maximize Your Medicare Benefits

Not everything we need to be healthy and feel our best comes from doctors, hospitals, and prescription medicines. This is why you will find an increasing number of Medicare Advantage plans including an increasing number of services not found in Original Medicare.

Medicare Advantage plans are sold by private insurance companies and provide a different way for their members to receive their Medicare Part A, Part B and often Part D Prescription coverage. In addition to the convenience of an "all-in-one" health insurance plan with coverage for hospital care, doctor visits, outpatient services, and diagnostic tests, many of today's plans provide a range of extra benefits to help their members maintain their good health.

### What are some examples of Advantage plan extra benefits?

Not every Advantage plan offers the same menu of extra benefits. Examples of some of the more popular benefits offered by major Advantage plans include:

- Transportation to health-related services, such as doctors' visits or trips to the pharmacy
- An allowance of anywhere from \$65, \$75 or more every three months for over-the-counter non-prescription medications and health care related products such as cough and cold medicines, heating pads, blood pressure monitors, vitamins and more.
- Wellness programs and gym memberships
- Meal delivery service after a hospital stay
- Fitness trackers

• Bathroom modifications including shower seats and grab bars

While many of the above benefits have been added in recent years, more common 'extras' included in many plans are dental benefits, eye exams and glasses, and hearing aids – all services not covered by Original Medicare.

If your Advantage plan does not provide coverage for any extras, remember that plans have the flexibility to choose the supplemental benefits they offer. They can also change which, if any, supplemental benefits they will provide - subject to Medicare's approval.

Choosing a Medicare Advantage plan that will be best for you can quickly get confusing. You can spend hours comparing plans on your own or you put your trust in the hands of an insurance professional whose job is to find a plan with the benefits you will

use. You want to talk with someone you can rely on and will be around should you have questions in the future. That's where I come in. Call me, Laura Mutsko at Mutsko Insurance Services at 440-255-5700 or email me at [Lmutsko@mutskoinsurance.com](mailto:Lmutsko@mutskoinsurance.com) and I will find the right coverage for you.

Laura Mutsko is a licensed insurance broker offering a complete line of health and life insurance products, including Individual, Group and Family Health, Annuities, Long Term Care Insurance, Medicare Advantage, Medicare Supplement Plans, Medicare Part D Prescription Coverage, Vision, Dental and Life Insurance. # What is a Medicare Advantage Plan?

A Medicare Advantage Plan is a type of health insurance offered by Medicare-approved private companies. They must follow rules set by Medicare and are another way to get your Medicare Part A (Hospital), and Part B (Medical) coverage. Most Medicare Advantage Plans also include Part D which is your prescription drug coverage. So your Medicare Parts A, B, & D are all wrapped up into one plan with one ID card. These plans have a limit on what you will have to pay out-of-pocket each year for covered services. These plans

have a network of hospitals and doctors they you will need to use for the lowest cost. These plans serve a specific service area. You will need to live in the service area to enroll in a Medicare Advantage Plan. The most common types of Medicare Advantage Plans in this area are

Health Maintenance Organization (HMO), Preferred Provider Organization (PPO), and Special Needs Plans (SNPs). You can only go to doctors, hospitals, and providers in the plan's network for HMO plans except in an emergency or if urgent care

is needed. These plans may or may not require a referral to see specialists, other doctors, or tests. Preferred Provider Organization or PPO plans offer in and out of network benefits. You will pay less if you use providers, hospitals and doctors that are in-network and more if you go out of the network. Special Needs Plans focus of specific groups of people. An example is someone who is enrolled in both Medicare and Medicaid, who has a chronic condition, or lives in a nursing home.

## Residents Reminded to Pick-Up Pet Waste

Did you know that leaving pet waste on the ground could be harmful to water quality? The next time you and your dog are anxious to get out in the yard or go for a walk this summer, consider some things first. Pet waste contains bacteria, parasites, viruses and nutrients, which can make humans sick. When pet waste is left on surfaces like the tree lawns, beaches, trails and sidewalks, storm water washes them into storm drains and ditches. Pollutants are then washed directly into our waterways and Lake Erie

untreated through storm water flow. Pet waste can contribute to excessive amounts of nutrients in runoff that leads to an increase in algae growth, possibly leading to a Harmful Algal Bloom (HAB). This type of algal bloom can produce toxins, which has the potential to close beaches and make Lake Erie, our drinking water source undrinkable!

Follow these steps to help keep bacteria and nutrients out of storm water:

- Pick up after your pets! Flush the waste down the toilet or throw it

in the trash.

- Never leave pet waste on the ground during walks in the neighborhood or in community parks.

- Because pet waste contains bacteria, it cannot be composted.

- Do not dump pet waste anywhere but in the trash!

Eliminate storm water pollution in your backyard and help keep Mentor's waterways clean! For more information, contact the City of Mentor Building and Engineering Department at (440) 255-1100.

Medicare Advantage Plans also include additional benefits not covered by Medicare.

Hi Everyone! Hope you're all doing well. We're getting into our busy season now - there are a lot of special days to celebrate. It's time to plan your parties and hopefully we'll be a lot closer to normal this year starting with graduations.

We can help you with designing a cake or cupcakes, cookies, and pastry trays. We can help you with

either a small dinner party or a big cookout, simple or elegant. You have many choices to make the party your own, small budget or big one.

Make sure you take care of Mom! Mother's Day is Sunday, May 9th. Do something special for her, and maybe a special dessert.

There may be a lot of baby and wedding showers this year- we

hope you all will be able to have your parties and enjoy them.

Monday, May 31st is Memorial Day. Please take some time today to honor our soldiers, our policemen, firemen and all the other first responders who put their lives on the line for us every day. They don't have to do it- they choose to do it. Honor them and thank them.

# HVAC REPAIR or REPLACE?

By DeBord's One Hour Heating & Air Conditioning® & Benjamin Franklin Plumbing of Chardon, Ohio.

Regular maintenance and sensible repairs are the keys to longevity for your HVAC system. But ultimately, your heating and cooling equipment has an expiration date. So eventually, there will come a time when replacement is the smart option.

If you're building a new home, you'll need to install a new HVAC system from scratch. Whether you're replacing an old system or putting one in for the very first time, it takes a lot of work to install a complete HVAC system. Work that is best left to a professional.

### Outdated HVAC Systems

Outdated HVAC systems are expensive headaches. They may be old, broken, and wasteful. These issues mean they require frequent repairs and don't perform efficiently. And those problems cost you even more out-of-pocket in energy bills. The following issues are signs that your heating and cooling system is outdated.

### It's Aged Out

If your HVAC equipment is more than a decade old, it's probably time for an upgrade. While it may still run, you're not enjoying top efficiency.

### Repairs are Too Expensive

Whether your HVAC system needs frequent repairs or you're

facing a single expensive fix, it's time to weigh the costs. Are the repairs running you more than half the price of a new system? Replacement is the better option.

### Your Indoor Temperatures are Uncomfortable

Is your home always too hot or too cold? Perhaps you're experiencing hot and cold spots throughout the house. These are signs that your system is struggling to do its job. Breakdowns are likely imminent.

### The Energy Bills Keep Rising

Old, inefficient heating and cooling equipment leads to energy waste. You'll notice higher bills because of this.

### You or Family Members are Experiencing More Respiratory

### Issues

Poor indoor air quality can lead to more colds, sinus issues, and other respiratory problems. This may indicate poor ventilation due to a faulty HVAC system.

If you have noticed more than one of these issues, it may be time to replace your HVAC system.

throughout Northeast Ohio, along with honest, fair prices.

Steve Douglas the owner of Mentor Window was asked about how they continue having such success in the home improvement industry. "We have crews that have been with us for decades, and we are very particular about the installers we hire. We won't just hire anyone to catch up if we are backed up a bit, quality is at the top of our list when it comes to workmanship. When it comes to pricing, we are straight forward with people, they don't want to

hear any buy 1 get 1 free nonsense. They want a fair, honest price up front without all the gimmicks you see out there in advertising. We treat each and every one of our customers like family."

"Only about 5% of the Home Improvement companies in Northeast Ohio have performed consistently well enough to earn our Super Service Award," said Angie (founder of Angie's List.) "It's a really high standard."

Angie's List Super Service Award 2020 winners have met strict eligibility requirements,

which include an "A" rating in overall grade, recent grade, and review grade period; the company must be in good standing with Angie's List, pass a background check and abide by Angie's List operational guidelines.

Service company ratings are updated daily on Angie's List. Companies are graded on an A to F scale in areas ranging from price to professionalism to punctuality.

## There's More to Mold Than Just the Spore!

Mold can emit a fungal gas! When particular molds colonize and they progress through their life cycle they emit a gas (musty smell). As the reservoir of fungus grows to several billion spores in the colony, our noses detect the smell of these fungal gases.

When a closed indoor environment continues to fill with the mycotoxic gases, they can become a health risk. The affect it has on the human body is dependent on three variables. Our individual immune systems, the type of spore and the volume of fungal gas, determines the impact on our bodies.

Additionally, the longer the exposure to these gases, the greater the likely hood we will develop a sensitivity. Much like other environmental allergens we are exposed to, the longer the exposure, the greater the chance our bodies will have an adverse reaction.

Some health effects include, headaches, shortness of breath, dizziness, lethargy, fever, and digestive problems. More severe reactions are hypersensitivity, and asthma symptoms. Although rare, certain Aspergillus species release aflatoxins that are carcinogenic.

There are many things in life we cannot control, but exposure to fungal gases is not one of them. With a little effort, we can reduce or eliminate this health hazard by using a disinfectant or removing the affected material. In some instances, it may be necessary to seek a professional opinion or get professional help.

# Spring Has Arrived!

Spring has arrived and it's time to make your lawncare and landscape management plans.

As the temperature warms we can all get out and start on our favorite spring activities. If your favorite way to cure cabin fever is to do yard work, here are a few tips to help your yard look its best.

1. Get any remaining leaves off your lawn and beds.

2. Get your mower tuned up and sharpened! Hopefully you've already done this, as shops can get quite backed up this time of year.

3. PLAN AHEAD! I can't stress the importance of this enough. If you are thinking of making major changes or a complete do-over, now is a good time to start shopping for professional help- we can even get

some of the demolition and prep work in. Everyone wants to be the first one on the list, but the reality is, back logs can build up quickly.

4. Mow grass before it gets too tall. You should be removing 1/4 - 1/3 of the leaf blade with each cutting. Typically 1/2" - 1." Remove excess grass clippings, if necessary.

5. Late March through mid-April is the time to get crabgrass control down. Be sure

your coverage is thorough and at proper rates. If in doubt, hire professional help. The same goes for all chemical and fertilizer treatments. Grasshoppers founder has been ODA licensed since 1979 and still personally makes and oversees all chemical and fertilizer applications.

If you would rather cure your cabin fever by golfing, fishing, boating, hiking, or just kicking

back and relaxing- you could leave the yard work to us. That's why we are here. Grasshoppers Groundskeeping was started in 1983 and has been providing quality, professional service to the tri-county area ever since. Whether you want to wash your hands of yard work completely, need help with one or two tasks, install enhancements, or start over completely, we can help.

Call today (440) 257-4349.

## Nelson Electric and Air LLC

Ever need an electrician to fix a light switch, outlet, replace a ceiling fan?

We do the little jobs that no one else wants to do. We are residential electricians.

So what is the difference? General electrical work in Ohio does not require licensing. Specifically, only commercial contractors in Ohio need a license

to work. Electrical contractors are licensed by the state and can install, repair, or alter all forms of electrical equipment. In Ohio, you need five years of experience with a licensed electrician before you can apply for an electrical contractor license. There are a few ways that you can gain that experience. You could work as an apprenticeship for a few years,

attend trade school and apply for entry-level positions, or simply climb the industry ladder in your local area. Apprenticeships teach you the basics of electrical wiring, equipment usage, and electrical theory.

Residential electricians, take a course offered at several colleges in Ohio and coupled with experience can practice general electrical repairs and replacements in a home. So that is what Nelson Electric and Air does. We do general repairs and installations in the home. We

install ceiling fans, repair lamps, change out light fixtures to new LED fixtures etc. We can update electrical boxes, run a 220 line for your dryer or hot tub. Run wiring for security cameras, install electric heaters in your garage. These are typical jobs that commercial electricians do not want to deal with.

We are covered by liability insurance, 500 to a million-dollar coverage. We will provide references upon request. We wear booties over our shoes and masks for inside work and clean up our workspace before we leave. We

have 30 years of experience. We also install Air vending machines that fill car tires. We typical install these in gas stations and car washes for free and the owner gets 35% of the revenue generated. We collect and maintain and repair these Air machines. The owner has no responsibility and no financial obligation. We think outside the box and we are open to install these machines in any business that thinks they can benefit from them. ## “Meals on Wheels” Program Needs Drivers and Kitchen Help at all 5 Locations

The Lake County Council on Aging’s “Meals on Wheels” program is in need of volunteer drivers to deliver meals and volunteers to assist in the kitchen packing meals.

We are looking for volunteers who can commit to deliver meals or help in the kitchen at least one day per week. As we anticipate senior centers re-opening the need for volunteers on Monday, Tuesday, Wednesday, Thursday and Friday increases. Meals on Wheels volunteers are needed at all five locations; Madison, Painesville, Mentor, Wickliffe and Willowick.

Every weekday, kitchen volunteers are needed for 3 to 4 hours in the morning starting at 7:30am or 8am. Volunteer drivers deliver lunchtime meals to homebound seniors between 10:30am and 12:30pm. Last year, volunteers helped deliver over 195,000 meals to these older residents in need, throughout Lake County.

“The demand for Meals on Wheels service has been increasing each year resulting in this current critical need for volunteers,” said Joe Tomsick, Chief Executive Officer of the Lake County Council on Aging. “The success of the program relies solely on the number of volunteers we have to provide

this much needed service for our aging population.”

The home delivered meal program is a great opportunity to volunteer as an individual or duo, with a family member or a friend, and meet new people within the community. Delivering meals also provides an opportunity for local businesses, community groups and churches to adopt a route and schedule group members to deliver on that day each week.

An important benefit of this home-delivery program is the opportunity for social interaction between the volunteers and the meal recipients. Social isolation is a significant concern for seniors living on their own. The daily visits by Meals on

Wheels volunteers includes not just a meal, but a chance for a friendly smile, a little upbeat conversation and a face-to-face visit that serves as a “wellness check.”

Please call Ann Marie Armario the Council on Aging at 440-205-8111, ext. 228 or email [aarmario@lcco.org](mailto:aarmario@lcco.org) for more information.

About Lake County Council on Aging: The Lake County Council on Aging (LCCoA) has been serving Lake County’s seniors, their families and caregivers since 1972.
