

GoWild Australia is a Natural Technical Solution Provider and Global Supplier of Australian Native Foods

If you are seeking to develop all natural preservative alternatives or formulations based on the unique phytochemistry of Australian native plant extracts, then GoWild Australia's superfoods and superfruits are an excellent choice. We will work with you to customize applications (formulation and delivery systems) that meet your needs. No synthetic or chemical additives are required in GoWild Australia systems.

GoWild Australia's Native Plant Extracts

GoWild Australia, develops and licenses uniquely innovative all-natural extracts and process solutions from Aboriginal wisdom traditions, contemporizing ancient reverence for Australia's unique plant biodiversity into authenticated solutions in foods, beverages, nutraceuticals, supplements, skin care, hair and body care products. We assure sustainable economic empowerment for its supply-chain partners and the communities they serve.

GoWild Australia's products are proprietary liquid extracts, dehydrated 100% whole fruit powders, essential and fixed oils, from Australian native plants

Kakadu Plum is being developed through an exclusive supply chain of cooperative Aboriginal growers in the Northern Territories and will meet the guaranteed vitamin C and polyphenol content shown in our specification sheets.

Liquid Extracts & 100% Powders
