

Jamming2 - by Peter Green

This puzzle has 24 'clues', one for each row and column. They are presented alphabetically. Each 'clue' is in fact 2 clues joined together and so will provide 2 answer words. The punctuation may or may not divide them properly and they are not necessarily in the correct order.

Enter the 2 answer words in the correct row or column appropriately. However, for 6 rows and 4 columns only 1 word can be entered. In these cases, the unused word should be written to the left of the row or on top of the column.

These 10 unused words, taken in order on the left and then across the top will provide a well-known quote and the shaded squares will provide the formal name of its author.

1. A lot of papers are organized for the first mildly manic policeman who doesn't have the energy to squawk (7,4)
2. A show about Aladdin finally, getting on the exalted female and bringing everything back for her (5,6)
